ESTABLISHING A GROUP RESIDENCE HOME

CHECKLIST

STEP ONE: Zoning Compliance

Depending on how many residents there will be and what zoning district the property is located in, either a zoning compliance form (approved by Staff) or a Conditional Use Permit (approved by the Board of Commissioners) will be required. Please contact Judy Johnson at the Development Services Department to determine which applies to your proposal. If a Conditional Use Permit is required, a pre-application meeting must be scheduled (at this meeting you will need a survey of your property).

*If you are a GRH that will provide services for individuals up to the age of 18 years old, prior to issuance of zoning compliance, a 24-Hour Crisis Intervention Plan must be approved by law enforcement (or its designee). If you are a GRH that will provide services for individuals over the age of 18, prior to the issuance of a zoning compliance, a 24-hour Crisis Intervention Plan must be approved by the Department of Development Services. Please see the attached sheets for details on what should be contained in the Plan for your requested use. The Plan should be submitted to the Development Services Department and a review should be completed in approximately 5 days. Once the Plan is approved, a copy should be posted at all times at the property.

STEP TWO: Obtain a Building Permit (If Applicable)

If a building permit is required or if you are doing renovations, please contact Crystal Dooley. Any applicable impact fees will be collected at this point (please contact Joy Honeycutt with questions about impact fees).

STEP THREE: Pass a Fire Marshall Inspection

A Fire Marshall inspection will need to be scheduled. Please contact Newton County Fire if you are a Home Occupation (see the attached inspection checklist). If you are operating in a commercial district, please contact the State Fire Marshall’s office. Fees for Fire Marshall plan review will be collected at this point (as applicable).

STEP FOUR: Obtain Septic Tank Approval (If Applicable)

If the property uses a septic tank and you are in a commercial location, you will need the Environmental Health Department to issue an approval.

STEP FIVE: Obtain a State License

Group residences (community living arrangements), and Personal care homes are licensed by the Georgia Department of Human Resources, Office of Regulatory Services, Personal Care Home Program. You must provide a copy of your approved license before advancing to the next step.

STEP SIX: Obtain a Business License

Fees for the fire inspection and any applicable impact fees will be collected at this point (please contact Joy Honeycutt with questions about impact fees). Bring copies of your approved fire inspection, approved Zoning Compliance letter, Building Compliance Report (if applicable), and your approved State license to Development Services in order to complete the application for a business license.

GROUP RESIDENCE HOME  
ZONING COMPLIANCE APPLICATION  
FOR HOME OCCUPATION ONLY

Please note that the zoning review for a Group Residence Home is the first step in a process that requires additional approvals. As the application paperwork has made clear, a group residence home will also require fire marshal approval, possible building permits and approval from the Environmental Health Department and other agencies as applicable. Although the zoning review may take only a few days to complete, the process to obtain final approval from all reviewers may take upwards of six (6) months.
