ARTICLE 2.1 Challenge of Registration List

1. Any elector of the county may challenge the right of any other elector of the county, whose name appears on the list of electors, to vote in an election. Such challenge shall be in writing and specify distinctly the grounds of such challenge. Such challenge may be made at any time prior to the elector whose right to vote is being challenged voting at the elector's polling place or, if such elector cast an absentee ballot, prior to the close of the polls on the day of the election.

2. Upon the filing of such challenge, the county board of registrars shall immediately consider such challenge and determine whether probable cause exists to sustain such challenge. If the registrars do not find probable cause, the challenge shall be denied. If the registrars find probable cause, the registrars shall notify the poll officers of the challenged elector's precinct or, if the challenged elector voted by absentee ballot, notify the poll officers at the absentee ballot precinct and, if practical, notify the challenged elector and afford such elector an opportunity to answer.

3. If the challenged elector appears at the polling place to vote, such elector shall be given the opportunity to appear before the registrars and answer the grounds of the challenge.

4. If the challenged elector does not cast an absentee ballot and does not appear at the polling place to vote and if the challenge is based on grounds other than the qualifications of the elector to remain on the list of electors, no further action by the registrars shall be required.

5. If the challenged elector cast an absentee ballot and it is not practical to conduct a hearing prior to the close of the polls and the challenge is based upon grounds other than the qualifications of the elector to remain on the list of electors, the absentee ballot shall be treated as a challenged ballot pursuant to O.C.G.A. § 21-3-291. No further action by the registrars shall be required.

6. If the challenged elector does not cast an absentee ballot and does not appear at the polling place to vote and the challenge is based upon grounds that the challenged elector is not qualified to remain on the list of electors, the board of registrars shall proceed to conduct a hearing on the challenge upon the election of the election superintendent. The election superintendent shall not certify such consolidated returns until such hearing is complete and the registrars have rendered their decision on the consolidated returns. If the registrars uphold the challenge, the name of the challenged elector shall be removed from the list of electors and the ballot of the challenged elector shall be rejected and not counted and, if necessary, the returns shall be adjusted to remove any votes cast by such elector. The elector making the challenge and the challenged elector may appeal the decision of the registrars in the same manner as provided in Subsection (e) of O.C.G.A. § 21-2-229.

8. If the challenged elector appears at the polls to vote and it is practical to conduct a hearing on the challenge prior to the close of the polls, the registrars shall conduct such hearing and determine the merits of the challenge. If the registrars deny the challenge, the elector shall be permitted to vote in the election notwithstanding the fact that the polls may have closed prior to the time the registrars render their decision and the elector can actually vote, provided that the elector proceeds to vote immediately after the decision of the registrars. If the registrars uphold the challenge, the challenged elector shall not be permitted to vote and, if the challenge is based upon the grounds that the elector is not qualified to remain on the list of electors, the challenged elector's name shall be removed from the list of electors.

9. If the challenged elector appears at the polls to vote and it is not practical to conduct a hearing prior to the close of the polls or if the registrars begin a hearing and subsequently find that a decision on the challenge cannot be rendered within a reasonable time, the challenged elector shall be permitted to vote by having the word "Challenged" and the elector's name written across the back of the elector's ballot notwithstanding the fact that the polls may have closed prior to the time the registrars make such a determination, provided that the elector proceeds to vote immediately after such determination of the
registrars. In such cases, if the challenge is based upon the grounds that the challenged elector is not qualified to remain on the list of electors, the registrars shall proceed to finish the hearing prior to the certification of the consolidated returns of the election by the election superintendent. If the challenge is based on other grounds, no further action shall be required by the registrars. The election superintendent shall not certify such consolidated returns until such hearing is complete and the registrars have rendered their decision on the challenge. If the registrars deny the challenge, the superintendent shall proceed to certify the consolidated returns. If the registrars uphold the challenge, the name of the challenged elector shall be removed from the list of electors and the ballot of the challenged elector shall be rejected and not counted and, if necessary, the returns shall be adjusted to remove any votes cast by such elector. The elector making the challenge and the challenged elector may appeal the decision of the registrars in the same manner as provided in Subsection (e) of O.C.G.A. § 21-2-229.

ARTICLE 2.1 Permanency of Registration

Registration of an elector will remain permanent if the elector votes in at least one (1) election every three (3) years. If such person does not vote in at least one (1) general or special election or primary in a three (3) year period and does not specifically request continuation of his registration, then the elector's name will be removed from the registration list and he shall be required to re-register in the manner provided for original registration.

ARTICLE 2.1 Absentee Registration

Not more than one hundred eighty (180) days prior to the date of the primary or election, or runoff of either, in which the elector desires to vote, any absentee elector may make, either by mail, by facsimile transmission, or in person in the registrar's office, an application to the board of registrars of the county of the elector's residence for an official ballot of the elector's precinct to be voted at such primary, election, or runoff. In the case of an elector residing temporarily out of the county or a physically disabled elector residing within the county, the application for the elector's absentee ballot may, upon satisfactory proof of relationship, be made by such elector's mother, father, grandparent, aunt, uncle, sister, brother, spouse, son, daughter, niece, nephew, grandchild, son-in-law, daughter-in-law, mother-in-law, father-in-law, brother-in-law, or sister-in-law, of the age of eighteen (18) or over. Except in the case of physically disabled electors residing in the county, no absentee ballot shall be mailed to an address other than the permanent mailing address of the elector as recorded on the elector's voter registration record or a temporary out of county address. Relatives applying for absentee ballots for electors must also sign an oath stating that facts in the application are true. If the elector is unable to fill out or sign such elector's own application because of illiteracy or physical disability, the elector shall make such elector's mark, and the person filling in the rest of the application shall sign such person's name below it as a witness; provided, however, that one timely and proper application for an absentee ballot for use in a primary shall be sufficient to require the mailing of the absentee ballot to an eligible absentee elector who lives outside the county in which the election is held and is also a member of the armed forces of the United States, a member of the merchant marine of the United States, or a spouse or dependent of a member of the armed forces or the merchant marine residing with or accompanying said member or overseas citizen for such primary as well as for any runoffs resulting therefrom and for the election for which such primary shall nominate candidates. Further, such application for an absentee ballot to be used in any election shall be sufficient to require the mailing of an absentee ballot for any runoffs resulting from such election. In any event, a separate and distinct application for an absentee ballot shall be required for the presidential preference primary held pursuant to O.C.G.A. § 21-2-190 et seq. and for any special election or special primary.

ARTICLE 2.1 Election Identification

Such information shall be available to the general public and a notice containing such information shall be posted and maintained in a conspicuous place available to the public at the regular meeting place of the agency. Meetings shall be held in accordance with a regular schedule, but nothing in this subsection shall preclude an agency from canceling or postponing any regularly scheduled meeting. Whenever any meeting required to be open to the public is to be held at a time or place other than at the time and place prescribed for regular meeting, the Board of Commissioners shall give due notice thereof. “Due notice shall be the posting of a written notice for at least twenty-four (24) hours at the place of regular meetings and giving of written or oral notice at least twenty-four (24) hours in advance of the meeting to the legal organ in which notices of sheriff’s sales are published in the county where regular meetings are held or at the option of the Board of Commissioners to a newspaper having a general circulation in said county at least equal to that of the legal organ; provided, however, that in counties where the legal organ is published less often than four times weekly “due notice” shall be the posting of a written notice for at least twenty-four (24) hours at the place of regular meetings and, upon written request from any local broadcast or print media outlet whose place of business and physical facilities are located in the county, notice by telephone or facsimile to that requesting media outlet at least twenty-four (24) hours in advance of the called meeting. of a meeting of the Board of Commissioners shall be promptly recorded and such records shall be open to public inspection once approved as official by the agency, but in no case later than immediately following the next regular meeting of the Board of Commissioners; provided, however, nothing contained in this chapter shall prohibit the earlier release of minutes, whether approved by the Board of Commissioners or not. All attachments to the official minutes of the Newton County Board of Commissioners, including but not limited to resolutions, ordinances and contracts, shall be physically attached to the minutes or kept in numbered files which are incorporated in the minutes by reference and expressly made a part thereof. The numbered files shall be kept in the office of the Newton Board of Commissioners in a fire proof safe with the minute book. The county clerk shall be the official custodian of the files, and access to the files shall be limited to the clerk and her authorized designees. Any person not a member of Board of Commissioners who desires to address the Board of Commissioners shall first secure the permission of the presiding officer, and then shall step up in front of the rail, give his name and address in an audible tone of voice for the record, and direct his remarks to the Board of Commissioners as a body rather than to any particular member, limiting such remarks to five (5) minutes unless additional time is granted by Board of Commissioners.

In the event the questioned instrument is not redrafted to meet a department head objection, or objection is not withdrawn and approval in writing given, then the Chair shall so advise the Board of Commissioners and give the reasons advanced by the department head for withholding approval.

C. **Introduction and Adoption.**

1. Every proposed ordinance shall be introduced in writing and in the form required for final adoption. No ordinance shall contain a subject which is not expressed in its title. It shall become effective upon adoption or at such later time as it may specify. Every emergency ordinance shall automatically stand repealed thirty (30) days following the date upon which it was adopted, but this shall not prevent reenactment of the ordinance in the manner specified in this section if the emergency continues to exist. An emergency ordinance shall also be repealed by adoption of a repealing ordinance in the same manner specified in this section for adoption of emergency ordinances.

4. **Recording Vote.** Whenever any member shall request it the yeas and nays of the members present shall be recorded on the minutes on any question taken.

   A. Newton County relies on its computer network and standalone PC's to conduct its business. To ensure that its computer resources are used properly by its employees, independent contractors, agents, and other computer users, the Newton County Board of Commissioners has adopted this Computer Use Policy.
   B. The rules and obligations in this Policy apply to all users of the County's computer network, wherever they may be located. Violations will be taken very seriously and may result in disciplinary action, including possible termination, and civil and criminal liability.
   C. It is every employee’s duty to use the County’s computer resources responsibly, professionally, ethically and lawfully.

2. Definitions. From time to time in this policy, terms are referred to that require definitions:
   A. The term Computer resources refers to the County's entire computer network. Specifically, Computer resources includes, but are not limited to: host computers, file servers, application servers, communication servers, mail servers, fax servers, Web servers, workstations, stand-alone computers, laptops, software, data files, and all internal and external computer and communications networks (for example, Internet, commercial online services, value-added networks, e-mail systems) that may be accessed directly or indirectly from our computer network.
   B. The term Users refers to all employees, independent contractors, consultants, temporary workers, and other persons or entities who use our Computer resources.
   C. The Computer resources are the property of Newton County and may be used only for legitimate county business purposes. Users are permitted access to the Computer resources to assist them in performance of their jobs. Use of the computer system is a privilege that may be revoked at any time.
   D. In accessing our Computer resources, users must comply with the following provisions.
      (1) No Expectation of Privacy.
         (a) No Expectation of Privacy. The computers and computer accounts given to users are to assist them in the performance of their jobs. Users should not have an expectation of privacy in anything they create, store, send, or receive on the computer system. The computer system belongs to the County and may be used only for County business purposes.
         (b) Waiver of Privacy Rights. Users expressly waive any right of privacy in anything they create, store, send, or receive on the computer or through the Internet or any other computer network. Users consent to allowing authorized
personnel of the county to access and review all materials users create, store, send, or receive on the computer or through the Internet or any other computer network that is county owned. Users understand that the "County" may use human or automated means to monitor use of its Computer resources.

(2) **Prohibited Activities.**

(a) **Inappropriate or Unlawful Material.** Material that is fraudulent, harassing, embarrassing, sexually explicit, profane, obscene, intimidating, defamatory, or otherwise unlawful or inappropriate may not be sent by e-mail or other form of electronic communication (such as bulletin board systems, newsgroups, chat groups) or displayed on or stored in the county's computers. Users encountering or receiving this kind of material should immediately report the incident to their supervisors.

(b) **Prohibited Uses.** Without prior written permission from the Information Systems Director, the county's computer resources may not be used for dissemination or storage of commercial or personal advertisements, solicitations, promotions, destructive programs (that is, viruses or self-replicating code), political material, or any other unauthorized use.

(c) **Waste of Computer Resources.** Users may not deliberately perform acts that waste Computer resources or unfairly monopolize resources to the exclusion of others. These acts include, but are not limited to, sending mass mailings or chain letters, spending excessive amounts of time on the Internet, playing games, engaging in online chat groups, printing multiple copies of documents, or otherwise creating unnecessary network traffic.

(d) **Misuse of Software.** Without prior written authorization from the Information Systems Director, users may not do any of the following:

(i) Copy software for use on their home computers.

(ii) Provide copies of software to any independent contractors or agents of the County or to any third person.

Unauthorized dissemination of this information may result in substantial civil liability as well as severe criminal penalties.

(3) **Passwords.**

(a) **Responsibility for Passwords.** Users are responsible for safeguarding their passwords for access to the computer system. Individual passwords should not be printed, stored online, or given to others. Users are responsible for all transactions made using their passwords. No User may access the computer system with another user's password or account. All passwords must be provided to the department head or designee.

(b) **Passwords Do Not Imply Privacy.** Use of passwords to gain access to the computer system or to encode particular files or messages does not imply that users have an expectation of privacy in the material they create or receive on the computer system. The County has global passwords that permit it access to all material stored on its computer system-regardless of whether that material has been encoded with a particular user's password.

(4) **Security.**

(a) **Accessing Other User's Files.** Users may not alter or copy a file belonging to another user without first obtaining permission from the owner of the file. Ability to read, alter, or copy a file belonging to another user does not imply permission to read, alter or copy that file. Users may not use the computer system to 'snoop'
or pry into the affairs of other users by unnecessarily reviewing their files and e-mail.

(b) **Accessing Other Computers and Networks.** A user’s ability to connect to other computer systems through the network or by a modem does not imply a right to connect to those systems or to make use of those systems unless specifically authorized by the operators of those systems.

(c) **Computer Security.** Each user is responsible for ensuring that use of outside computers and networks, such as the Internet, does not compromise the security of the county's computer resources. This duty includes taking reasonable precautions to prevent intruders from accessing the company's network without authorization and to prevent introduction and spread of viruses.

(5) **Viruses.**

(a) **Virus Detection.** Viruses can cause substantial damage to computer systems. To that end, all material received on floppy disk or other magnetic or optical medium and all material download from the Internet or from computers or networks that do not belong to the county MUST be scanned for viruses and other destructive programs before being placed onto the computer system. (b) **Accessing the Internet.** To ensure security and avoid the spread of viruses, users accessing the Internet through a computer attached to the county's network must do so through an approved Internet firewall. There is also hereby set and levied, for the payment of principal and interest on general obligation bonds, an annual ad valorem tax as determined by the Board of Commissioners upon all real and personal property within the county. Such levies shall be shown separately on all tax bills.

2. **Assessment and Fair Market Value.** All property subject to ad valorem taxation shall be assessed at forty percent (40%) of its fair market value. The basis for fair market value shall be one hundred percent (100%) of the fair market value determined for the property by the county for county ad valorem tax purposes.

3. **Appeal of Assessment.** Any taxpayer may appeal from an assessment by the county Board of Tax Assessors to the county Board of Equalization as to matters of taxability, uniformity of assessment, and value. The taxpayer or the county Board of Tax Assessors may appeal to the Newton County Superior Court from a decision of the county Board of Equalization. All such appeals shall be made in the manner provided in O.C.G.A. § 48-5-311.

4. **When Taxes Due and Payable.** Ad valorem taxes shall become due on the first day of 20th day of September each year and shall be deemed delinquent if not paid within by December 20th. Tax bills showing the assessed valuations, amount of taxes due, tax due dates, and information as to delinquency dates and penalties shall be sent to all taxpayers at least thirty (30) days prior to the due date, but failure to send a tax bill shall not invalidate any tax. Any taxes willfully not paid within ninety (90) days of the due date shall be delinquent. Delinquent taxes shall bear an interest at one percent (1%) per month from the date the tax is due in addition to a penalty of ten percent (10%) of the amount of revenue held in trust and not paid on or before the time prescribed by law. (See O.C.G.A., § 48-2-44).

5. **Failure to Pay Tax.** The county shall forthwith issue an execution against any person who has defaulted in the payment of any ad valorem tax to be paid. The execution thus issued shall be a lien on all the property of such person, both real and personal, and shall be placed in the hands of the county officer responsible for collection by levy and sale.

The Tax Commissioner or other person authorized to collect the taxes due to the county may attach the property of the delinquent taxpayer on any ground provided by O.C.G.A. § 18-3-1 or on the ground that the taxpayer is liquidating his property in an effort to avoid payment of the tax. The Tax Commissioner may use garnishment to collect the tax pursuant to O.C.G.A. § 48-3-1 et seq., or may levy upon all property and rights to property belonging to the taxpayer not otherwise exempt, for the payment of the amount due, together with any interest on the amount, any penalty for non-payment, and such further amount as shall be sufficient for the fees, costs, and expenses of the levy. Judicial sales shall be conducted pursuant to O.C.G.A. § 48-2-55.

The Tax Commissioner or other person authorized to collect taxes shall enter on the execution the name of the person garnished and shall return the execution to the court. The subsequent proceedings on the garnishment shall be the same as on garnishments in cases when judgment has been obtained.
1. **Against Whom Charged.** Taxes are to be charged against the owner of the property, if known, or against the specific property itself if the owner is not known. Life tenants and those who enjoy the use of the property are chargeable with the tax thereon.

State Minimum Fire Safety Standards

The State Minimum Fire Safety Standards shall have state-wide effect and shall not require adoption by Newton County. Newton County is authorized to enforce these standards on all buildings and structures except one-family and two-family dwellings and those structures listed in O.C.G.A. § 25-2-13. Notwithstanding any other provision of law or any local ordinance to the contrary, in the event of a conflict between any code or standard of the National Fire Protection Association (National Fire Code and National Electric Code) and of the Standard Building Code Congress (Southern Standard Building Code), the code or standard of the National Fire Protection Association (National Fire Code and National Electric Code) shall prevail. The order of precedence established by this subsection shall apply to all buildings and structures whether or not such buildings and structures are covered under this Code section.

ARTICLE 2.1

Open Burning Within Unincorporated Areas

1. Restrictions and Procedures. No person shall kindle or maintain any rubbish fire or authorize any such fire to be kindled or maintained without first obtaining a Permit to Burn through the Newton County Fire Department. Upon calling, you will reach a recording system. Listen to the recording, then leave your name, address where the burn is to take place and a telephone number. This will serve as your burn permit authorization.

2. Safety Precautions Required. After obtaining a Permit to Burn, the following safety precautions shall be observed:

A. No person shall kindle or maintain any bonfire or rubbish fire, or authorize any such fire to be kindled or maintained on any privately owned land, unless:
   (1) No building or structure shall be located within fifty (50) feet of the actual or proposed location of the fire and adequate provisions shall be taken to prevent a fire from spreading within fifty (50) feet of any building or structure.
   (2) The fire shall be contained in an approved waste burner located safely and not less than fifty (50) feet from any building or structure.

B. Bonfires and rubbish fires shall be constantly attended by a competent person until such fire is extinguished.

C. The person so attending the fire shall have an adequate water supply and/or have other fire extinguishing equipment, readily available for use to control the fire.

3. Controlled Burns. These restrictions will not in any way prohibit the use of "Controlled Burns" as an accepted agricultural practice on farmlands and in woodland. However, the individual in charge of the controlled burn will obtain a permit as prescribed herein so that county fire agencies and Georgia Forestry will have knowledge of the date, time and magnitude of the controlled burn. For large agriculture and land clearing burns, two permits are necessary. Caller should first call the local Forestry Office. If a permit is granted, the forestry Office will also notify the Newton County Fire Department.

4. Burn Classification. Each morning in the Newton County Fire Service shall obtain from the Newton-Rockdale Forestry unit the burn classification for that day. When responding to a request for a Permit to Burn, each individual requesting a Permit to Burn shall be advised whether that day is a "Burn" or "No Burn" day.
If the day is a "Burn" day, the recording will tell the requestor to leave their name, address and telephone number and that will serve as their burn permit. When a Permit to Burn is not issued, the recording will tell the requestor that due to the unsafe conditions there will be no burning on that day. The requesting party shall also be advised that burning without a Permit to Burn is a violation of this ordinance and subjects the party so doing to the penalties contained herein.

1. **Construction Materials and Debris.** Construction and Demolition Debris shall consist of but not be limited to, treated lumber, plywood, OSB board, pallets, cardboard, siding, sheet rock, insulation, shingles, buckets, paint cans, carpet, wiring, foam board, etc.
   (1) Construction and Demolition Debris cannot be burned.
   (2) Construction and Demolition Debris must go to a permitted landfill.
   (3) Construction and Demolition Debris cannot be buried on site.
   (4) Neither the Georgia Forestry nor Newton Fire Service can issue a Permit to Burn Construction and Demolition Debris.
   (5) Untreated, dimensional lumber may be burned in a burn container, if conditions under Section B. are met.

2. **Penalties.** Individuals in violation of this ordinance will be left to the discretion of the authority having jurisdiction, as to whether a warning or citation will be given. For each offense, each person convicted of violating this ordinance will be fined a minimum five hundred dollars ($500.00), to a maximum one thousand dollars ($1,000.00) for the first offense. For the second and each subsequent offense each person convicted of violating the ordinance, will be fined a minimum of one thousand dollars ($1,000.00) and a maximum of two thousand dollars ($2,000.00). In certain cases, individuals may also be charged under State and Federal Environmental Protection Agency and Forestry regulations.

Except as provided in Paragraph 3B hereafter or in other provisions of this section of the Code of Ordinances, the Fire Prevention Code, Life Safety Code, State Rules and Regulations, and the National Fire Codes, as adopted by Newton County under Paragraph 2, and the other provisions of this section, shall apply to all buildings, structures, premises, facilities, occupancies, conditions and regulated activities as herein specified within the corporate limits of Newton County.
   
   B. The Fire Prevention Code, Life Safety Code, State Rules and Regulations, National Fire Codes and the other provisions of this section shall not apply to the following:
      
      1. Those buildings, structures, facilities, occupancies and activities that are regulated under the Georgia Safety Fire Act, as amended: (Official Code of Georgia Annotated § 25-2-13) since the aforesaid act imposes special requirements on buildings, structures, facilities, occupancies and activities enumerated in the aforesaid Official Code of Georgia Annotated section;
      
      2. One- and two-family residences, wherever they may be located within the limits of Newton County, Georgia.
Building Permits and Certificates of Occupancy Subject to Review by Fire Marshal. The Fire Marshal shall review the plans and specifications for proposed construction for which applications for building permits are made to ensure that all proposed buildings and structures and modifications thereof are in compliance with the provisions of this section. No building permit shall be issued by the Building Inspector in accordance with this section unless and until the Fire Marshal concurs therein showing the compliance of such proposed construction with the provisions of this section.

No building or structure subject to the provisions of this section shall be used or occupied until the Fire Marshal has issued a certificate of occupancy thereof. Upon completion of any new building or structure or the conversion of any existing building or structure so as to make same subject to this section, application shall be made by the proposed tenant or the owner of such building or structure for a certificate of occupancy. The application shall be on such form as specified by the Fire Marshal and shall be accompanied by an application fee of fifty dollars ($50.00). The Fire Marshal shall proceed to inspect the subject building or structure to ensure compliance with the provisions of this section. Within ten (10) days after said application, the Fire Marshal shall either issue the certificate of occupancy to the applicant or notify the applicant in writing of the reasons for denial of the certificate of occupancy. A certificate of occupancy, when issued, shall run for the life of the building, provided that the internal or external features are not materially altered and the type of occupancy remains unchanged and there has been no fire of serious consequence or other hazard discovered. In existing buildings when substandard conditions are found, temporary occupancy may be permitted. A permit for temporary occupancy shall carry a time limit being necessary to make proper corrections in order to bring the subject building or structure into compliance with the provisions of this section.

1. Definitions Used in Fire Prevention Code. As used in the Fire Prevention Code adopted under Section 2, the phrase "Fire Official" shall mean the Fire Marshal serving in accordance with the provisions of Paragraph 1B.

2. Exception to the Adoption of Fire Prevention Code. The Standard Fire Prevention Code ("Fire Prevention Code") adopted pursuant to the provision of Paragraph 2A is hereby amended and modified by the complete deletion of Chapter II, "Board of Appeals and Adjustments," as though said chapter had never been adopted. Any and all appeals arising due to the application of the Fire Prevention Code shall be governed by the provisions of Section 10-103-13. Any place in the Fire Prevention Code referring to a Board of Appeals and adjustments shall be construed to mean the "Chairman and Board of Commissioners of Newton County."

3. Reserved.

4. Reserved.

5. Clearing Property of Debris and Refuse Where a Building is Burned.

A. Where a building or structure has burned, the premises must be cleared of all debris and refuse within ninety (90) days thereafter. If such premises are not cleared within said period, the same shall constitute a violation and may be treated accordingly.

B. Provided, however, that if the remains of a building mentioned under Paragraph 9A above constitute a safety hazard, the Building Inspector or any other official or citizen of this County may at any time file a complaint with the Newton County Board of Commissioners as provided by Paragraph 13 of this Chapter to have such condition declared to be a nuisance and for the abatement of same as therein provided.

C. The provisions of this paragraph are and shall be construed to be cumulative of all other provisions of this Chapter regarding the condition of property within the County and shall not be construed to alter, amend or repeal any other such provisions.

6. Driving Across Firehose Prohibited. It shall be unlawful for anyone to drive any vehicle of any kind over or across any firehose of the County.
7. **Fire Calls Inside the City Limits.** The Fire Departments will answer all calls inside the city limits in accordance with the "Emergency Operations Procedures Inside City Limits" and with the written "Firefighting Mutual Aid Agreement," as approved by the Chairman and Board of Commissioners and Coordinator of the Fire Service of Newton County.

8. **Modifications of Codes, Generally.** The Fire Marshal shall have the power to modify any of the provisions of the Fire Prevention Code and Life Safety Code upon application in writing by the owner, lessee or his duly authorized agent when there are practical difficulties in the way of carrying out the strict letter of this section, provided that the intent of the section and the applicable Code shall be observed, public safety secured, and substantial justice done. The particulars of such modifications, when granted or allowed and the decision of the Fire Marshal, shall be entered upon the records of the said Bureau and a signed copy shall be furnished to the applicant.

9. **Appeals.** Whenever the Fire Marshal has disapproved an application or refused to grant a permit applied for, or when it is claimed that a provision of this section does not apply or that the true intent and meaning of the within mentioned Codes have been misconstrued or wrongly interpreted, the applicant shall be entitled to appeal from the decision of the said Fire Marshal to the Chairman and Board of Commissioners by filing written notice of appeal within thirty (30) days from the day of the decision appealed.

10. **Penalties.** Any person who shall violate any of the provisions of this section hereby adopted, including the Codes, Rules and Regulations adopted under Paragraph 2 hereof, or who should fail to comply therewith or who should fail to comply with or who should violate any order made thereunder, or who should build in violation of any detailed statement of specifications or plans submitted and approved thereunder and from which no appeal has been taken, or who should fail to comply with such an order as affirmed or modified by the governing body, or by any other court of competent jurisdiction, within the time fixed therein, shall be a violation of this section and upon conviction thereof shall be punished in accordance with the Code of Ordinances of Newton County. The imposition of one penalty for any violation shall not excuse the violation or permit it to continue, and all such persons shall be required to correct or remedy such violations or defects within a reasonable time. The application of the above penalty shall not be held to prevent the enforced removal of prohibited conditions.

11. **Nonliability of Persons Enforcing Section.** Any public employee, officers or other person responsible for the enforcement of this section, including the Fire Marshal, acting for the governing body in the discharge of its duties, shall not therefore render himself liable personally and each person is hereby relieved from all personal liability from any damage that may occur to persons and/or property as a result of any act required or permitted in the discharge of duties.

12. **Inspection of Buildings and Premises and Authority to Enter Premises.**

   A. It shall be the duty of the Fire Marshal or other representatives of the said Bureau or the County Fire Service to inspect all buildings and premises except the interiors of dwellings expressly exempted from the application of this section, as often as may be necessary for the purpose of ascertaining and causing to be corrected any conditions liable to cause fire, endanger life from fire, or any violations of the provisions or intent of this section dealing with fire hazards and life safety.

   B. The Chief of the Fire Department, Fire Marshal or any Inspector therefore may, at all reasonable hours, enter any building or premises covered by the application of this section for the purpose of making any inspection or investigation which, under the provisions of this section, he or they may deem necessary to be made. The Chief of the Fire Department, Fire Marshal or any Inspectors thereof shall be permitted by the owner, lessee, manager or operator of any building or premise to enter and inspect their building or premises at the time and for the purpose stated in this paragraph.

   C. Any inspections by the Chief of the Fire Department, Fire Marshal or any Inspectors thereof of buildings and premises not otherwise open to the public shall be made only upon securing the consent of the owner or occupant thereof or upon securing of a search warrant for the inspection of said premises issued by the County Recorder upon the showing of probable cause of a violation of the County Code.

13. **Prohibition on Use of Inverting-type Fire Extinguishers.** Due to the discontinuance of the listing by Underwriters’ Laboratories, Inc., of inverting types of fire extinguishers and difficulties encountered in finding suitable replacement parts and recharge materials, notwithstanding any provision contained in the Fire Safety Code, the Life Safety Code and the Georgia State Rules and Regulations, as same apply to Newton County, Georgia, inverting types of fire extinguishers shall not qualify as an approved fire extinguisher that may be required under any of the aforesaid provisions.
14. **Discharge of Combustible/Flammable Liquids or Other Hazardous Substances.** It shall be unlawful to place, deposit, discharge or to permit to be placed, deposited or discharged on or into any public or private street or roadway, public or private property, natural outlet, drainage ditch, storm sewer or sanitary sewer combustible or flammable liquids or vapors or any other hazardous substance which may create a safety hazard to persons or property. Nothing contained herein, however, shall prohibit the proper storage and/or transportation of such combustible or flammable liquids or other hazardous substances otherwise in accordance with the various Codes and Regulations adopted pursuant to Paragraph 2. It shall be the responsibility of the person or persons responsible for the discharge of combustible or flammable liquids or other hazardous substances to bear the costs of the removal and proper disposition of the discharged liquid or hazardous substances.

15. **Buildings and Structures Required to Have Approved Automatic Sprinkler Systems.**

12. The provisions of this article have been adopted pursuant to the 1982 amendments by the Georgia General Assembly to the Georgia Fire Safety Act. Pursuant to the provisions of Section 25-2-12(b), Official Code of Georgia Annotated (formerly Section 92A-706(b) Georgia Code Annotated) Newton County does hereby adopt the “State Minimum Fire Safety Standards,” adopted in the Rules and Regulations promulgated pursuant to Chapter 2 of Title 25, Official Code of Georgia Annotated, to apply only to those buildings and structures listed in Section 25-2-13, Official Code of Georgia Annotated. As used in this article, the term “State Rules and Regulations” shall mean the State Minimum Fire Safety Standards adopted in the Rules and Regulations promulgated by the Georgia Safety Fire Commission pursuant to the aforesaid Official Code of Georgia Annotated from time to time including all
subsequent revisions thereof as fully as if same were set out herein in their entirety. The provisions of this article and the State Rules and Regulations shall apply only to those buildings and structures listed in Section 25-2-13 Official Code of Georgia Annotated. Without limiting the foregoing, the provisions of Section 25-2-12(a) Official Code of Georgia Annotated, are hereby specifically adopted for application to buildings and structures located within Newton County.

13. **Plan and Specifications for Proposed Buildings; Certificate of Occupancy; Fees.**

A. Plans and specifications for all proposed buildings and structures shall be submitted to and receive approval by the Fire Marshal in charge of the Fire Prevention Bureau of Newton County (hereinafter called the "Fire Marshal") before any building permit may be issued or construction started thereon. All such plans and specifications submitted for screening shall bear the seal and Georgia registration number of the drafting architect or engineer or otherwise have the approval of the Fire Marshal. A complete set of the approved plans and specifications shall be maintained on the construction site and construction shall proceed in compliance with the minimum fire safety standards under which such plans and specifications were approved. The owner of any such building or structure, or his authorized representative, shall notify the Fire Marshal upon completion of approximately eighty percent (80%) of the construction thereof and shall apply for a certificate of occupancy when construction of such building or structure is completed.

B. Every building or structure shall have a certificate of occupancy issued by the Fire Marshal before such building or structure may be occupied. Such certificates of occupancy shall be issued for each business establishment within a building or structure, shall carry a flat rate charge of fifty dollars ($50.00) per business establishment, shall state the occupant load for such business establishment or building, shall be posted in a prominent location within such business establishment or building and shall run for the life of the building, except as provided in Paragraph 31C herein.

C. For purposes of this article, any existing building or structure thereof shall be deemed to be a proposed building in the event such building or structure is subject to Substantial Renovation, a fire or other hazard of serious consequence or a change in the classification of occupancy. For purpose of this article, "Substantial Renovation" shall mean any construction project involving exits or internal features of such building or structure costing more than the building's or structure's assessed value according to County tax records at the time of the renovation.

14. **Temporary Occupancy Permits.** In existing buildings or structures when substandard conditions are found, a temporary occupancy permit may be issued, such permit carrying a time limit for a time adjusted to meet the amount of time being necessary to make the proper corrections in order to bring the building up to standard. All certificates of occupancy shall be issued against the building and shall not require renewal because of change of ownership. The same set of fees for certificates of occupancy as applicable to proposed buildings covered under Paragraph 31 shall apply. The Fire Marshal shall determine the time limit in complying with any of the provisions of this article.

15. **Buildings and Structures to Comply with State Rules and Regulations.**

A. Every existing building and structure shall comply with the minimum fire safety standards specified in the State Rules and Regulations which were in effect at the time such building or structure was constructed, except for those standards pertaining to electrical requirements which shall be the current standards adopted and specified in the State Rules and Regulations. A less restrictive provision contained in any subsequently adopted minimum fire safety standard may be applied to any existing building or structure.

B. Every proposed building and structure shall comply with the adopted minimum fire safety standards under the State Rules and Regulations that were in effect on the date that the plans and specifications therefore were received by the Fire Marshal for review and approval in accordance with the provisions of Paragraph 31.

16. **Right of Entry to Inspect Premises.** The Fire Marshal shall have authority at all times of day or night to enter in or upon and examine all buildings or premises where a fire is in progress or has occurred and other buildings or premises adjacent to or near same. Likewise, the Fire Marshal shall have the right to enter in and upon all buildings and premises subject to this article at all reasonable times for the purpose of examination or inspection. Upon complaint submitted in writing, the Fire Marshal may enter in or upon any building or premise between the hours of sunrise and sunset for the purpose of investigating such complaint. The Fire Marshal, upon the complaint of any person whenever he deems it necessary, may inspect or cause to be inspected all buildings and premises covered by this
article. Anything contained herein to the contrary notwithstanding, any inspections of buildings and premises by the Fire Marshal not otherwise open to the public shall be made only upon securing the consent of the owner or occupant of said premises or upon securing of a search warrant for the inspection of said premises issued by the County Magistrate upon the showing of probable cause of violation of the Code of Ordinances.

17. **Notice to Correct Conditions.** Whenever the Fire Marshal shall find any building or other structure which for want of repair, or by reason of age or dilapidated condition or from any other cause, is especially hazardous from fire or which is so situated as to endanger other property or the safety of the public, whenever such officer shall find in or around any building, combustible or explosive matter or inflammables or other conditions dangerous to the safety of such buildings, notice may be given to the owner or agent and occupant of any building coming under the provisions of this section to correct such unsafe condition as may be found.

18. **Court Order to Correct Conditions.** If any owner, agent or occupant fails to comply with the notice specified in the preceding sections, the Fire Marshal, upon approval of the governing authority of Newton County, may petition the court for a rule nisi to show cause why an order should not be issued by the court that the same be removed or remedied, and such court order, in vacation or regular term, shall forthwith be complied with by the owner or occupant of such building or structure. If such order is made by the court, such owner shall comply with same within such time that may be fixed in said court order. Nothing contained in this paragraph, however, shall be deemed to be a waiver of the County's rights to cause citation to be issued to the owner or occupant of any building or structure and the penalties specified in Paragraph 14 hereof. Paragraph 14 of this chapter is expressly made applicable to any violations of the provisions of this article.

19. **Failure to Comply with Court Order; Effect.** If any person fails to comply with the Order of the Court within the time fixed, then the County shall cause such building or premises to be forthwith repaired, torn down or demolished, and such materials removed and all dangerous conditions remedied, as the case may be at the expense of the County, and if the owner thereof, within thirty (30) days after notice in writing of the amount of such expense, fails, neglects or refuses to repay the city the expense thereby incurred, the County shall issue fi.fa against the owner of the property for the expense actually incurred.

20. **Final Authority for Ordering Enforcement.** The final authority for ordering the carrying out of the enforcement of the preceding sections to ensure compliance with this article shall be by Order of the Court and not by the Fire Marshal.

21. **Exemption From Fees.** All federal, state and county or city publicly owned buildings covered by this article are exempt from any fee or license which may be herein specified. Such fees or licenses may be waived by a resolution of the governing authority where such fees are chargeable to churches and other charitable organizations.

22. **Sovereign Immunity.** Nothing contained in this article or this section shall be construed to constitute a waiver of the sovereign immunity of the County or any officer or employee thereof in carrying out the provisions of this section. No action shall be maintained against the County or any officer, elected officer, or employee thereof for damages sustained as a result of any fire or related hazard covered by this section by reason of any inspection or other action taken or not taken pursuant to this section. Nothing in this section shall be construed to relieve any property owner or lessee thereof from any legal duty, obligation or liability incidental to the ownership, maintenance and use of such property.

(Resolved 11/7/94)

ARTICLE 2.1  Roads, Bridges, and Right of Way Pulpwood and Logging Operation Ordinance

1. **Purpose.** The purpose of this ordinance is to protect the county road system, bridges, and ditches from damage and excessive maintenance cost occasioned by the travel of heavy laden trucks and logging equipment over said road system.

2. Pulpwood and logging operations, which desire to cross county ditches to enter property for the purpose of cutting, must apply for and be granted a permit by the county road department to cross said ditch. Said ditch may only be crossed after the contractor has paid the county for the installation of an approved culvert pipe, or said contractor may use his own pipe if approved by the road superintendent such that storm water flow will not be restricted. Said contractor must restore said ditch line, backslopes, and road shoulders to original condition or better once his operations are complete in the area. In order to insure the protection of the county's road and ditch structure the contractor must file an application for a permit with the county road department for each crossing.

   For each pulpwood and logging operation, a one thousand dollar ($1,000.00) bond shall be posted with Newton County to insure compliance with this ordinance.

   After completion of pulpwood and logging operation with satisfactory compliance with the provisions of this ordinance the bond posted shall be returned to the applicant.

   In the event there is a failure of compliance with the provisions of this ordinance and the party is advised about this and fails to correct or perform those acts necessary to comply with this ordinance the bond amount may be used by Newton County toward the expense of causing compliance with the provisions of this ordinance.

3. **Heavily laden pulpwood, logging operations and heavy equipment vehicles** shall not proceed routinely over the county's unimproved road system during periods of rain or inclement weather when clearly, said travel causes excessive damage and maintenance to the road system such that road conditions for the passage of smaller and lighter passenger vehicles have been substantially hampered.

4. For pulpwood and logging operations, it shall be the responsibility of said contractor to ensure all trees, branches and limbs are removed from ditches as to not restrict the water flow and remove from county road sides (right-of-ways) as to not hamper the passage of county road department maintenance equipment, mowers, etc. This applies on both county unimproved road surfaces and county paved roadways.

5. **Heavy laden transport vehicles** are restricted from crossing county bridges, where their carted load exceeds the posted load limit of said bridge.

6. Pulpwood and logging operations which access county paved road surfaces will remove immediately dirt or mud brought onto the county road surfaces or county right-of-ways so as to prevent the destruction of improved surfaces and so as to not impede the hampering of safe motor vehicle operation over said surfaces. It shall be the responsibility of the contractor to place enough stone pad surface at access points and/or to take sufficient preventive action to stop any dirt and mud from adhering to county roadways.

7. For pulpwood and logging operations, it shall be the responsibility of said contractor to inform the Newton County Public Works Department of completion of each logging operation for purpose of final inspection of the work site area. This may be done by contacting either the Public Works Department or the County Commissioners Office.

   A. The "work site area" is considered to be the area at which a pulpwood or logging operation connects county roadways, ditches, right-of-way, roadway access points and access via county bridges.

8. Pulpwood and logging operations, the County Sheriff and/or the County Road Superintendent shall have the authority to temporarily stop/halt access to county roads at work site areas, any pulpwood or logging operation contractor from the use of heavy equipment on county roadways whom they may deem to be in noncompliance of this ordinance until such time the contractor complies.
7. **Noncompliance.**

A contractor as prescribed by the authority Paragraph 8 of this ordinance deemed in noncompliance may make repairs, etc., at his expense with the approval of the county road superintendent and within a specific time period.

B. A contractor as prescribed by the authority Paragraph 8 of this ordinance deemed in noncompliance and does not comply with Paragraph 9(A) may be billed by the Newton County Governing Authority for damages incurred by said contractor to the total cost for repairs.

C. Failure of any person to comply with any of the provisions of this ordinance constitutes a misdemeanor, and may be cited by the county Sheriff.

It shall be the responsibility of said pulpwood and/or logging contractors to comply to the ordinance provisions as approved by the Board of Commissioners.

**(Approved and Adopted 7/20/93)**

**ARTICLE 2.1 Regulation Governing Transport of Building Material**

1. **Title.** This ordinance will be known as the "Regulation Governing Transport of Building Materials."

2. **Prohibition.** It shall be unlawful for any person to haul or transport any building materials by means of any vehicle between the hours of sunset and sunrise unless the driver of the vehicle has in his possession documents satisfactorily establishing the ownership of such building materials, or the vehicle is owned by a governmental entity or public utility and is operated by an authorized employee of such governmental entity or utility, or the vehicle is subject to regulations of the Georgia Public Service Commission or the Interstate Commerce Commission. As used in this section, "building materials" shall mean and include any new materials customarily used in building or construction work and which have a reasonable fair market value in excess of one hundred dollars ($100.00).

3. **Penalties.** Any person violating the provisions of this ordinance shall be fined up to a maximum of five hundred dollars ($500.00). Such fine shall not bar prosecution or conviction for any related offense upon showing that the person convicted was unlawfully in possession of the building materials concerned.

**(Adopted 11/6/79)**

**ARTICLE 2.1 Speed Hump Policy**

1. **Policies.** In response to numerous complaints about speeding problems in neighborhoods, the Newton County Board of Commissioners has studied other similar communities and how those communities have addressed residential speeding problems. One popular and cost effective measure is the installation of speed humps. When properly designed and installed, and with strong community support, speed humps are effective at reducing speeds in neighborhoods. After much experimentation and testing, the use of speed humps has been formally endorsed by transportation authorities worldwide. In the United States, a policy on the use of speed humps has been developed by a special committee of the Institute of Transportation Engineers. The following policy has been established for the citizens of Newton County who want to pursue the installation of speed humps in their neighborhoods.

A. **Where:** Newton County will only consider installation of speed humps on streets classified as local, residential streets.

B. **Why:** Newton County will only install speed humps if the Newton County Commission Chairman, after conducting a limited study, determines that the installation of a speed hump will alleviate the alleged speed problems.

C. **Who:** Via informal petition, or a letter from an officer of an organized homeowner group, the homeowners of a neighborhood may request that their neighborhood be studied for the speed hump program. This letter or petition must represent a substantial percentage of the homeowners in that neighborhood.

D. **How:** After receiving the informal petition, the Newton County Commission Chairman will conduct a limited study to determine if the installation of a speed hump
will alleviate the alleged speed problems. If so, then, via formal petition, sixty-five percent (65%) of the property owners must affirm the installation of speed humps.

E. **What Kind:** The geometric design of the speed humps has been proven to be a critical factor in their effectiveness. Based on extensive research, speed humps will be constructed with the following specifications as determined by Newton County.

F. **How Much:** Property owners will pay for the installation and maintenance of the speed humps. These charges will show up as a separate entry on their annual property tax statement. The cost will be twelve dollars ($12.00) per property per year.

G. **What if:** The County will remove speed humps if:

1. Sixty-five percent (65%) of property owners, via formal petition, request their removal and,
2. The humps have been in place at least one (1) year and,
3. The homeowners are made aware that speeds will increase.

** For subdivisions not completely built out, a minimum of thirty percent (30%) of the total units must be occupied before any petition for the installation of speed humps will be considered, and a minimum of sixty percent (60%) of the total units must be occupied before a petition for the removal of speed humps will be considered.

The Newton County Board of Commissioners is taking the position that while speed humps are effective in reducing speeds in neighborhoods, their installation may be controversial. The key is that property owners be presented the facts as known so that they may make an informed decision.

1. **Procedure.**

A. **Objective.** The objective of the Newton County Speed Hump Program is to provide property owners a process to install asphaltic speed humps on County maintained neighborhood roads, where engineering studies indicate that their use would achieve the desired result of reducing neighborhood speeds and their installation is favored by a majority of the property owners in the neighborhood.

B. **Formal Petition Requirements.** To have speed humps installed in Newton County, a petition must be submitted to the Board of Commissioners. All of the property owners in the subdivision or defined service area should be contacted and given an opportunity to sign this petition, indicating their "yes" or "no" concerning the installation of speed humps.

1. Unless property is undergoing change of ownership, a wife's signature will not be acceptable if she is not the legal owner. If both husband and wife are joint legal owners, both signatures are required. A "Mr. & Mrs." signature is not acceptable.
2. The owners must sign individually. This includes owners of undeveloped lots; renting tenants are not an acceptable substitute for the legal homeowner.
3. No signature may be withdrawn from the petition after it is filed with the Board of Commissioners.

The percentages will be calculated, based on individual lots where owners sign affirmatively, divided by the total number of lots in the plotted subdivision, units, or "defined service area." Each lot counts as only one vote, regardless of the number of owners signing. At least sixty-five percent (65%) of the homeowners must vote in favor of the speed humps, before a petition can be presented to the Board of Commissioners.

The completed petition must be signed, notarized and then returned to this office, where it will be checked against tax records and land lot maps to insure that it meets all requirements. It will be returned to the sender if it does not meet the requirements. Petitions that do meet the requirements will be presented to the Commissioners at its regular meeting. A public hearing will be announced at that time for each petition. At the Public Hearing, the petition will be approved or disapproved by the Board of Commissioners.

A. **Installation.** The installation of the Speed Humps by the contractor will not be considered final until personnel of this office inspects the humps for compliance with design specifications.

B. **Time.** The time span from receiving the petition to installation will be approximately four (4) months or less.

C. **Cost.** Annualized charges for initial installation, maintenance and repair of speed humps are added to the property tax bills at the end of the year. Each platted lot,
whether developed or not, will be subject to the assessed charges. The rate for participation in the speed hump program will be twelve dollars ($12.00) per year per property in the defined service area.

D. **Removal.** Removal of Speed Humps can proceed if the Board of Commissioners is presented a formal petition requesting that speed humps be removed. At least sixty-five (65%) of the property owners must vote in favor of removing the speed humps. A petition to remove an installed speed hump must comply with the requirements of the formal petition to install a speed hump. A petition for removal will only be considered after speed humps have been in place for a period of at least one (1) year after installation.

In the case of a commercial or private hauler if the operator is unknown, then it shall be prima-facie evidence that the company or owner of the service has violated this Ordinance.
   B. Whenever any solid waste which is dumped, deposited, thrown, or left on public or private property in violation of this Ordinance is discovered to contain any article or articles, including but not limited letters, bills, publications, or other writings which display the name of a person thereon in such a manner as to indicate that the article belongs or belonged to such person, it shall be a rebuttable presumption that such person has violated this Ordinance. If such person can show that he lawfully gave possession, custody and control of such solid wastes to another person, then he shall make a sworn statement to that effect, supported by any documentary evidence available at which point the presumption shall shift to such other person.
   C. Whenever this Ordinance is violated by an employee or agent, then the employer or principal shall be rebuttably presumed to have violated this Ordinance unless and until he shall provide a sworn statement providing the name, address and telephone number of the employee or agent who violated this ordinance, the basis of the employer’s or principle’s knowledge of which individual violated this ordinance, and a statement to the effect that the employee or agent acted outside the scope of his employment or agency.
   D. If a person accused of violating this Ordinance on the basis of the rebuttable presumption created in subsection (A) or (B) of this provision, shall demonstrate by sworn testimony that another person had control of such litter, then the presumption shall shift to such other person.
   E. No person accused of violating this Ordinance shall be arrested prior to trial, but any defendant who fails to appear for trial shall be arrested thereafter on the warrant of the Magistrate, and required to post a bond to his future appearance.
3. **Penalties.**

(Adopted 8/2/88)
CHAPTER 34: FLOOD DAMAGE PREVENTION ORDINANCE

ARTICLE 1
Statutory Authorization, Findings of Fact, Purpose and Objectives

1. Statutory Authorization. The Legislature of the State of Georgia has in the Constitution of the State of Georgia of 1983 delegated the responsibility to local governmental units to adopt regulations designed to promote the public health, safety, and general welfare of its citizenry. Therefore, the Board of Commissioners of Newton County, Georgia does ordain as follows:

2. Findings of Fact.
   A. The flood hazard areas of unincorporated Newton County are subject to periodic inundation which results in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety and general welfare.
   B. The flood losses are caused by the cumulative effect of obstructions in flood plains causing increases in flood heights and velocities, and by the occupancy in flood areas by uses vulnerable to floods or hazardous to other lands which are inadequately elevated, flood-proofed, or otherwise unprotected from flood damages.

3. Statement of Purpose. It is the purpose of this ordinance to promote the public health, safety and general welfare and to minimize public and private losses to flood conditions in specific areas by provisions designed to:
   A. Restrict or prohibit uses which are dangerous to health, safety and property due to water or erosion hazards, or which result in damaging increases in erosion or in flood heights or velocities;
   B. Require that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;
   C. Control the alteration of natural flood plains, stream channels, and natural protective barriers which are involved in the accommodation of flood waters;
   D. Control filling, grading, dredging and other development which may increase erosion or flood damage, and;
   E. Prevent or regulate the construction of flood barriers which will unnaturally divert flood waters or which may increase flood hazards to other lands.

4. Objectives. The objectives of this ordinance are:
   A. to protect human life and health;
   B. to minimize expenditure of public money for costly flood control projects;
   C. to minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;
   D. to minimize prolonged business interruptions;
   E. to minimize damage to public facilities and utilities such as water and gas mains, electric, telephone and sewer lines, streets and bridges located in flood plains;

   A. to help maintain a stable tax base by providing for the sound use and development of flood prone areas in such a manner as to minimize future flood blight areas; and,
   B. to insure that potential home buyers are notified that property is in a flood area.

      (2) Directly by the Secretary of the Interior in states without approved programs.

23. **Lowest Floor** means the lowest floor of the lowest enclosed areas, including basement. An unfinished or flood resistant enclosure, usable solely for parking of vehicles, building access or storage, in an area other than a basement area, is not considered a building’s lowest floor, provided that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of this ordinance.

24. **Manufactured Home** means a structure, transportable in one or more sections, which is built on a permanent chassis and designed to be used with or without a permanent foundation when connected to the required utilities. The term also includes park trailers, travel trailers, and similar transportable structures placed on a site for one hundred eighty (180) consecutive days or longer and intended to be improved property.

25. **Mean Sea Level** means the average height of the sea for all stages of the tide. It is used as a reference for establishing various elevations within the floodplain. For purposes of this ordinance, the term is synonymous with National Geodetic Vertical Datum (NGVD).

26. **National Geodetic Vertical Datum (NGVD)** as corrected in 1929 is a vertical control used as a reference for establishing varying elevations within the floodplain.

27. **New Construction** means structures for which the “start of construction” commenced on or after the effective date of this ordinance.

28. **New Manufactured Home Park or Subdivision** means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed including as a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads is completed on or after the effective date of floodplain management regulations adopted by a community.

29. **Recreational Vehicle** means a vehicle which is:
   A. Built on a single chassis;
   B. Four hundred (400) square feet or less when measured at the largest horizontal projection;
   C. Designed to be self-propelled or permanently towable by a light duty truck; and
   D. Designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

30. **Start of Construction** (for other than new construction or substantial improvements under the Coastal Barrier Resources Act (P.L. 97-348), includes substantial improvement, and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, or improvement was within one hundred eighty (180) days of the permit date. The actual start means the first placement of permanent construction of a structure (including a manufactured home) on a site, such as the pouring of slabs or footings, installation of piles, construction of columns, or any work beyond the stage of excavation or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers or foundations or the erection of
temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure.

31. **Structure** means a walled and roofed building that is principally above ground, a manufactured home, a gas or liquid storage tank, or other manmade facilities or infrastructures.

32. **Substantial Damage** means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed fifty percent (50%) of the market value of the structure before the damage occurred.

33. **Substantial Improvement** means any combination of repairs, reconstruction, alteration, or improvements to a structure, taking place during the life of a structure, in which the cumulative cost equals or exceeds fifty percent (50%) of a market value of the structure. The market value of the structure should be (1) the appraised value of the structure prior to the start of the initial repair or improvement, or (2) in the case of damage, the value of the structure prior to the damage occurring. For the purpose of this definition, "substantial improvement" is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. The term does not, however, include either (1) any project for improvement of a structure required to comply with existing health, sanitary, or safety code specifications which are solely necessary to assure safe living conditions, or (2) any alterations of a structure listed in the National Register of Historic Places or the Georgia Register.

34. **Substantially Improved Existing Manufactured Home Parks or Subdivisions** is where the repair, reconstruction, rehabilitation or improvement of the streets, utilities and pads equals or exceeds fifty percent (50%) of the value of the streets, utilities and pads before repair, reconstruction or improvement commenced.

35. **Variance** is a grant of relief to a person from the requirements of this ordinance which permits construction in a manner otherwise prohibited by this ordinance where specific enforcement would result in unnecessary hardship.

**ARTICLE 2.1 General Provisions**

1. **Lands to Which This Ordinance Applies.** This ordinance shall apply to all areas of special flood hazard within the jurisdiction of Newton County.

2. **Basis for Establishing the Areas of Special Flood Hazard.** The areas of special flood hazard identified by the Federal Emergency Management Agency in its Flood Insurance Study, dated July 5, 1983, with accompanying maps and other supporting data and any revisions thereto are adopted by reference and declared to be part of this ordinance.

3. **Establishment of Development Permit.** A Development Permit shall be required in conformance with the provisions of this ordinance prior to the commencement of any development activities.

4. **Compliance.** No structure or land shall hereafter be located, extended, converted, or structurally altered without full compliance with the terms of this ordinance and other applicable regulations.

5. **Abrogation and Greater Restrictions.** This ordinance is not intended to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where this ordinance and another conflict or overlap, whichever imposes the more stringent restrictions shall prevail.

6. **Interpretation.** In the interpretation and application of this ordinance all provisions shall be:

   A. Considered as minimum requirements;
   B. Liberally construed in favor of the governing body; and
   C. Deemed neither to limit nor repeal any other powers granted under state statutes.
7. **Warning and Disclaimer of Liability.** The degree of flood protection required by this ordinance is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger floods can and will occur on rare occasions. Flood heights may be increased by manmade or natural causes. This ordinance does not imply that land outside the areas of special flood hazard or uses permitted within such areas will be free from flooding or flood damages. This ordinance shall not create liability in the part of Newton County or by any officer or employee thereof for any flood damages that result from reliance on this ordinance of any administrative decision lawfully made thereunder.

8. **Penalties for Violation.** Violation of the provisions of this ordinance or failure to comply with any of its requirements, including violation of conditions and safeguards established in connection with grants of variance or special exceptions, shall constitute a misdemeanor. Any person who violates this ordinance or fails to comply with any of its requirements shall upon conviction thereof, be fined not more than two hundred dollars ($200.00) or imprisoned for not more than ten (10) days, or both, and in addition shall pay all costs and expenses involved in the case. Each day such violation continues shall be considered a separate offense. Nothing herein contained shall prevent Newton County from taking such other lawful action, as is necessary to prevent or remedy any violation.

**ARTICLE 2.1 Administration**

1. **Designation of Building Inspector.** The county building inspector is hereby appointed to administer and implement the provisions of this ordinance.

2. **Permit Procedures.** Application for a Development Permit shall be made to the county building inspector on forms furnished by him, prior to any development activities, and may include, but not be limited to, the following plans in duplicate drawn to scale showing the nature, location, dimensions, and elevations of the area in question; existing or proposed structures, fill storage of materials, drainage facilities, and the locations of the foregoing. Specifically, the following information is required:

   A. **Application Stage.**
      (1) Elevation in relation to mean sea level of the proposed lowest floor (including basement) of all structures.
      (2) Elevation in relation to mean sea level to which any nonresidential structure will be flood-proofed.
      (3) Certificate from a registered professional engineer or architect that the nonresidential flood-proofed structure will meet the flood-proofing criteria in § 34-105(2)(B).
      (4) Description of the extent to which any watercourse will be altered or relocated as a result of proposed development.

   B. **Construction Stage.**
      (1) Provide a flood elevation or flood proofing certification after the lowest floor is completed. Within twenty-one (21) calendar days of establishment of the lowest floor elevation, or flood-proofing by whatever construction means, whichever is applicable, it shall be the duty of the permit holder to submit to the county building inspector a certification of the elevation of the lowest floor, flood proofed elevation, whichever is applicable, as built, in relation to mean sea level. Said certification shall be prepared by or under the direct supervision of a professional engineer or architect and certified by same. When flood-proofing is utilized for a particular building, said certification shall be prepared by or under the direct supervision of a professional engineer or architect and certified by same. Any work done within the twenty-one (21) day calendar period and prior to submission of the certification shall be at the permit holder's risk. The county building inspector shall review the Flood Elevation Survey data submitted. Deficiencies detected by such review shall be corrected by the permit holder immediately and prior to further progressive work being permitted to proceed. Failure to submit the survey or failure to make said corrections required hereby, shall be cause to issue a stop-work order for the project.

3. **Duties and Responsibilities on the County Building Inspector.** Duties of the county building inspector shall include, but not limited to:

   A. Review all development permits to assure that the permit requirements of this ordinance have been satisfied.
   B. Advise permittee that additional federal or state permits may be required, and if specific federal or state permits are known, require that copies of such permits be provided and maintained on file with the development permit.
C. Notify adjacent communities and the Department of Natural Resources, Georgia Geologic Survey, Flood Plan Management Unit, State of Georgia, prior to any alteration or relocation of a watercourse, and submit evidence of such notification to the Federal Emergency Management Agency.

D. Assure that maintenance is provided within the altered or relocated portion of said watercourse so that the flood carrying capacity is not diminished.

E. Verify and record the actual elevation (in relation to mean sea level) of the lowest floor (including basement) of all new or substantially improved structures, in accordance with Section 34-104(2)(B).

F. Verify and record the actual elevations (in relation to mean sea level) to which the new or substantially improved structures have been flood-proofed, in accordance with Section 34-104(2)(B).

G. When flood-proofing is utilized for a particular structure, the county building inspector shall obtain certification from a registered professional engineer or architect, in accordance with Section 34-105(2)(B).

H. Where interpretation is needed as to the exact location of the boundaries of the areas of special flood hazard (for example) there appears to be a conflict between a mapped boundary and actual field conditions; the county building inspector shall make the necessary interpretation. The person contesting the location of the boundary shall be given a reasonable opportunity to appeal the interpretation as provided in this section.

I. When base flood elevation data has not been provided in accordance with Section 34-103(2), then the county building inspector shall obtain, review and reasonable utilize any base flood elevation data available from a federal, state of other source, in order to administer the provisions of Section 34-105.

J. All records pertaining to the provisions of this ordinance shall be maintained in the office of the county building inspector and shall be open for public inspection.

A. The Newton County Planning Commission as established by Newton County shall hear and decide appeals and request for variances from the requirements of this ordinance.

B. The Newton County Planning Commission shall hear and decide appeals when it is alleged there is an error in any requirement, decision, or determination made by the county building inspector in the enforcement or administration of this ordinance.

C. Any person aggrieved by the decision of the Newton County Planning Commission, or any taxpayer may appeal such decision to the Superior Court of Newton County, as provided by law.

D. Variances may be issued for the repair or rehabilitation of historic structures upon determination that the proposed repair or rehabilitation will not preclude the structure's continued designation as a historic structure and the variance is the minimum to preserve the historic character and design of the structure.

E. In passing upon such applications, the Newton County Planning Commission shall consider all technical evaluations, all relevant factors, all standards specified in other sections of this ordinance and:

   (1) The danger that materials may be swept onto other lands to the injury of others;
   (2) The danger to life and property due to flooding or erosion damage;
   (3) The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner;
   (4) The importance of the services provided by the proposed facility to the community;
   (5) The necessity to the facility of a waterfront location, in the case of a functionally dependent facility;
   (6) The availability of alternative locations, not subject to flooding or erosion damage, for the proposed use;
   (7) The comparability of the proposed use with existing and anticipated development;
   (8) The relationship of the proposed use to the comprehensive plan and floodplain management program for that area;
   (9) The safety of access to the property in times of flood for ordinary and emergency vehicles;
   (10) The expected heights, velocity, duration, rate of rise and sediment transport of the flood waters and the effects of wave action, if applicable, expected at the site; and,
   (11) The costs of providing governmental services during and after flood conditions including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water systems, and streets and bridges.
F. Upon consideration of the factors listed above and the purpose of this ordinance, the Newton County Board of Commissioners may attach such conditions to the granting of variances as it deems necessary to further the purposes of this ordinance.

G. Variances shall not be issued within any designated flood way if any increase in flood levels during the base flood discharge would result.

H. Conditions for Variances.

1. Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief; and in the instance of a historical building, a determination that the variance is the minimum necessary so as not to destroy the historic character and design of the building.

2. Variances shall only be issued upon (i) a showing of good and sufficient cause; (ii) a determination that failure to grant the variance would result in exceptional hardship; and (iii) a determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisance, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances.

3. Any applicant to whom a variance is granted shall be given written notice specifying the difference between the base flood elevation and the elevation to which the structure is to be built and stating that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced lowest floor elevation.

4. The county building inspector shall maintain the records of all appeal actions and report any variances to the Federal Emergency Management Agency upon request.

ARTICLE 2.1 Provisions for Flood Hazard Reduction

1. General Standards. In all areas of special flood hazard the following provisions are required:
   A. All new construction and substantial improvements shall be anchored to prevent flotation, collapse or lateral movement of the structure.
   B. Manufactured homes shall be anchored to prevent floatation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. This standard shall be in addition to and consistent with applicable state requirements for resisting wind forces.
   C. All new construction or substantial improvement shall be constructed with material and utility equipment resistant to flood damage.
   D. All new construction or substantial improvements shall be constructed by methods and practices that minimize flood damage.
   E. Electrical, heating, ventilation, plumbing, air conditioning equipment, and other service facilities shall be designed and/or located so as to prevent water from entering or accumulating within components during conditions of flooding.
   F. All new and replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system.
   G. New and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters.
   H. On-site waste disposal systems shall be located and constructed to avoid impairment to them or contamination from them during flooding.
   I. Any alteration, repair, reconstruction, or improvements to a structure which is in compliance with the provisions of this ordinance, shall meet the requirements of “new construction” as contained in this ordinance.
   J. Any alteration, repair, reconstruction or improvements to a building which is not in compliance with the provisions of this ordinance, shall be undertaken only if said nonconformity is not furthered, extended, or replaced.

2. Specific Standards. In all areas of special flood hazard where base flood elevation data have been provided, as set forth in Section 34-103(2), or Section 34-104(3)(K), the following provisions are required:
   A. Residential Construction. New construction or substantial improvement of any residential building (or manufactured home) shall have the lowest floor, including basement, elevated to or above the base flood elevation. Should solid foundation perimeter walls be used to elevate a structure, openings sufficient to facilitate the unimpeded movements of flood waters shall be provided in accordance with standards of Section 34-105(2)(C).
B. **Nonresidential Construction.** New construction or substantial improvement of any commercial, industrial, or nonresidential building (or manufactured home) shall have the lowest floor, including basement, elevated to the level of the base flood elevation. Buildings located in all A-zones, together with attendant utility and sanitary facilities, may be flood-proofed in lieu of being elevated provided that all areas of the building below the base flood level are water tight with walls substantially impermeable to the passage of water, and use structural components having the capacity of resisting hydrostatic and hydrodynamic loads and effects of buoyancy. A registered professional engineer or architect shall certify that the standards of this subsection are satisfied. Such certification shall be provided to the official as set forth in Section 34-104(3)(I).

C. **Elevated Buildings.** New construction or substantial improvements of elevated buildings that include fully enclosed areas formed by foundation and other exterior walls below the base flood elevation shall be designed to preclude finished living space and designed to allow for the entry and exit of floodwaters to automatically equalize hydrostatic flood forces on exterior walls.

   1. Designs for complying with this requirement must either be certified by a professional engineer or architect or meet the following minimum criteria:
      - Provide a minimum of two (2) openings having a total net area of not less than one (1) square inch for every square foot of enclosed area subject to flooding;
      - the bottom of all openings shall be no higher than one foot above grade; and,
      - openings may be equipped with screens, louvers, valves or other coverings or devices provided they permit the automatic flow of floodwaters in both directions.

   2. Electrical plumbing and other utility connections are prohibited below the base flood elevation;

   3. Access to the enclosed area shall be the minimum necessary to allow for parking of vehicles (garage door) or limited storage of maintenance equipment used in connection with the premises (standard exterior door) or entry to the living area (stairway or elevator); and

   4. The interior portion of such enclosed area shall not be partitioned or finished into separate rooms.

D. **Standards for Manufactured Homes and Recreational Vehicles.**

   1. All manufactured homes placed, or substantially improved, on individual lots or parcels, in expansions to existing manufactured home parks or subdivisions, or in substantially improved manufactured home parks or subdivisions, must meet all requirements for new construction, including elevation and anchoring.

   2. All manufactured homes placed or substantially improved in an existing manufactured home park or subdivision must be elevated so that:
      - The lowest floor of the manufactured home is elevated to or above the level of the base flood elevation, or
      - The manufactured home chassis is supported by reinforced piers or other foundation elements of at least an equivalent strength, of no less than thirty-six (36) inches in height above grade.
      - The manufactured home must be securely anchored to the adequately anchored foundation system to resist flotation, collapse and lateral movement.
      - In an existing manufactured home park or subdivision on which a manufactured home has incurred “substantial damage” as the result of a flood, and manufactured home place or substantially improved must meet the standards of Section 34-105, Paragraph 2-D-(2)(a) and (b) above.

   3. All recreational vehicles placed on sites must either:
      - Be fully licensed and ready for highway use or,
      - The recreational vehicle must meet all the requirements for new construction, including anchoring and elevation requirements of Section 34-105, Paragraph 2-D(1) or (2)(a) and (c), above.

A recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached structures.

A. **Flood Ways.** Located within areas of special flood hazard established in Section 34-103(2), are areas designated as flood ways. Since the flood way is an extremely hazardous area due to the velocity of flood waters which carry debris, potential projectiles and has erosion potential, the following provisions shall apply:
(1) Prohibit encroachments, including fill, new construction, substantial improvements and other developments unless certification (with supporting technical dates) by a registered professional engineer is provided demonstrating that encroachments shall not result in any increase in flood levels during occurrence of the base flood discharge.

(2) If Section 34-105(2)(E)(1), is satisfied, all new construction and substantial improvements shall comply with all applicable flood hazard reduction provisions of Section 34-105.

(3) Prohibit the placement of manufactured homes (mobile homes), except in an existing manufactured home (mobile homes) park or subdivision. A replacement manufactured home may be placed on a lot in an existing manufactured home park or subdivision provided the anchoring standards of Section 34-105(1)(B), and the elevation standards of Section 34-105, (2)(A) and the encroachment standards of Section 34-105(2)(E)(1), are met.

2. Standards for Streams Without Established Base Flood Elevations And/or Flood Ways. Located within the areas of special flood hazard established in Section 34-103(2), where streams exist but where no base flood data have been provided or where no flood ways have been provided, the following provisions apply:

   A. No encroachments, including fill material or structures shall be located within areas of special flood hazard, unless certification by a registered professional engineer is provided demonstrating that the cumulative effect of the proposed development when combined with all other existing and anticipated development will not increase the water surface elevation of the base flood more than one foot at any point within the community. The engineering certification should be supported by technical data that conforms to standard hydraulic engineering principles.

   B. New construction or substantial improvements of structures shall be elevated or flood-proofed to elevations established in accordance with Section 34-104(3)(K).

   A. All subdivision proposals shall be consistent with the need to minimize flood damage.

   B. All subdivision proposals shall have public utilities and facilities such as sewer, gas, electrical and water systems located and constructed to minimize flood damage.

   C. All subdivision proposals shall have adequate drainage provided to reduce exposure to flood hazards.

   D. Base flood elevation data shall be provided for subdivision proposals and other proposed development (including manufactured home parks and subdivisions) which is greater than the lesser of fifty lots or five acres.

4. Standards for Areas of Shallow Flooding (A0 Zones). Located within the areas of special flood hazard established in Section 34-103(2), are areas designed as shallow flooding areas. These areas have special flood hazards associated with base flood depths of one to three feet (1'-3') where a clearly defined channel does not exist and where the path of flooding is unpredictable and indeterminate; therefore, the following provisions apply:

   A. All new construction and substantial improvements of residential shall have the lowest floor, including basement, elevated to the depth number specified on the Flood Insurance Rate Map, in feet, above the highest adjacent grade. If no depth number is specified, the lowest floor, including basement, shall be elevated, at least two (2) feet above the highest adjacent grade.

   B. All new construction and substantial improvements of nonresidential buildings shall:

      (1) have the lowest floor, including basement, elevated to the depth number specified on the Flood Insurance Rate Map, in feet, above the highest adjacent grade. If no depth number is specified, the lowest floor, including basement shall be elevated at least two (2) feet above the highest adjacent grade, or;

      (2) together with attendant utility and sanitary facilities be completely flood-proofed to or above that level so that any space below that level is watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy.

4. The construction of single-family residences, when such are constructed by or under contract with the owner for his or her own occupancy, or the construction of single-family residences not a part of a platted subdivision, a planned community, or an association of other residential lots consisting of more than two (2) lots and not otherwise exempted under this paragraph; provided, however, that construction of any such residence shall conform to the minimum requirements as set forth in Section 35-104 of this ordinance. For single-family residence construction covered by the provisions of this paragraph, there shall be a buffer zone between the residence and any state waters classified as trout streams pursuant to Article 2 of Chapter 5 of the Georgia Water Quality Control Act. In any such buffer zone, no land-disturbing activity shall be constructed between the residence and the point where vegetation has been wrested by normal stream flow or wave action from the banks of the trout waters. For primary trout waters, the buffer zone shall be at least fifty (50) horizontal feet, and no variance to a smaller buffer shall be granted. For secondary trout waters, the buffer zone shall be at least fifty (50) horizontal feet, but the Director may grant variances to no less than twenty-five (25) feet. Regardless of whether a trout stream is primary or secondary, for first order trout waters which are streams into which no other streams flow except for springs, the buffer shall be at least twenty-five (25) horizontal feet, and no variance to a smaller buffer shall be granted. The minimum requirements of section 35-104 of this ordinance and the buffer zones provided by this paragraph shall be enforced by the Issuing Authority.
5. Agricultural operations as defined in O.C.G.A. § 1-3-3, “definitions”, to include raising, harvesting or storing of products of the field or orchard; feeding, breeding or managing livestock or poultry; producing or storing feed for use in the production of livestock, including but not limited to cattle, calves, swine, hogs, goats, sheep, and rabbits or for use in the production of poultry, including but not limited to chicken, hens and turkeys; producing plants, trees, fowl, or animals; the production of aquaculture, horticultural, dairy, livestock, poultry, eggs and apiarian products; farm buildings and farm ponds;

6. Forestry land management practices, including harvesting; provided, however, that when such exempt forestry practices cause or result in land-disturbing or other activities otherwise prohibited in a buffer, as established in paragraphs (O) and (P) of Section 35-104(3) of this ordinance, no other land-disturbing activities, except for normal forest management practices, shall be allowed on the entire property upon which the forestry practices were conducted for a period of three (3) years after completion of such forestry practices;

7. Any project carried out under the technical supervision of the Natural Resources Conservation Service of the United States Department of Agriculture;

8. Any project involving one and one-tenth (1-1/10) acres or less; provided, however, that this exemption shall not apply to any land-disturbing activity within two hundred (200) feet of the bank of any state waters, and for purposes of this paragraph, “State Waters” excludes channels and drainageways which have water in them only during and immediately after rainfall events and intermittent streams which do not have water in them year round; provided, however, that any person responsible for a project which involves one and one-tenth (1-1/10) acres or less, which involves land-disturbing activity, and which is within two hundred (200) feet of any such excluded channel or drainageway must prevent sediment from moving beyond the boundaries of the property on which such project is located and provided, further, that nothing contained herein shall prevent the Issuing authority from regulating any such project which is not specifically exempted by paragraphs A,B,C,D,E,F,H, or I of this section;

9. Construction or maintenance projects, or both, undertaken or financed in whole or in part, or both, by the Department of Transportation, the Georgia Highway Authority, or the State Tollway Authority; or any road construction or maintenance project, or both, undertaken by any county or municipality; provided, however, that such projects shall conform to the minimum requirements set forth in section 35-104 (2) and (3) of this ordinance; provided further that construction or maintenance projects of Department of Transportation or State Tollway Authority which disturb five or more contiguous acres of land shall be subject to provisions of Code Section 12-7-7.1; and;

10. Any land-disturbing activities conducted by any electric membership corporation or municipal electrical system or any public utility under the regulatory jurisdiction of the Public Service Commission, provided that any such land-disturbing activity shall conform to the minimum requirements set forth in Section 35-104 (2) and (3).

Where this section requires compliance with the minimum requirements set forth in Section 35-104 (2) and (3) of this ordinance, issuing authorities shall enforce compliance with the minimum requirements as if a permit had been issued and violations shall be subject to the same penalties as violations by permit holders.

ARTICLE 2.1 Minimum Requirements For Erosion and Sedimentation Control Using Best Management Practices

1. General Provisions. Excessive soil erosion and resulting sedimentation can take place during land-disturbing activities. Therefore, plans for those land-disturbing activities which are not excluded by this ordinance shall contain provisions for application of soil erosion and sedimentation control measures and practices. The provisions shall be incorporated into the erosion and sedimentation control plans. Soil erosion and sedimentation control measures and practices shall conform to the minimum requirements of Section 35-104 (2) and (3) of this ordinance. The application of measures and practices shall apply to all features of the site, including street and utility installations, drainage facilities and other temporary and permanent improvements. Measures shall be installed to prevent or control erosion and sedimentation pollution during all stages of any land-disturbing activity.
Soil Erosion and Sedimentation Control

2. **Minimum Requirements/BMP'S.**
   
   A. Best management practices as set forth in Section 35-104 (2) and (3) of this ordinance shall be required for all land-disturbing activities. Proper design, installation, and maintenance of best management practices shall constitute a complete defense to any action by the Director or to any other allegation of noncompliance with paragraph (2) of this subsection or any substantially similar terms contained in a permit for the discharge of stormwater issued pursuant to subsection (f) of O.C.G.A. § 12-5-30, "Georgia Water Quality Control Act". As used in this subsection, the terms "proper design" and "properly designed" mean designed to control soil erosion and sedimentation for all rainfall events up to and including a twenty-five (25) year, twenty-four (24) hour rainfall event.
   
   B. A discharge of stormwater runoff from disturbed areas where best management practices have not been properly designed, installed, and maintained shall constitute a separate violation of any land-disturbing permit issued by a local Issuing Authority or by the Division or of any general permit for construction activities issued by the Division pursuant to subsection (f) of O.C.G.A. § 12-5-30, the "Georgia Water Quality Control Act", for each day on which such discharge results in the turbidity of receiving waters being increased by more than twenty-five (25) nephelometric turbidity units for waters supporting warm water fisheries or by more than ten (10) nephelometric turbidity units for waters classified as trout waters. The turbidity of the receiving waters shall be measured in accordance with guidelines to be issued by the Director.
   
   C. Failure to properly design, install, or maintain best management practices shall constitute a violation of any land-disturbing permit issued by a local Issuing Authority or by the Division or of any general permit for construction activities issued by the Division pursuant to subsection (f) O.C.G.A. § 12-5-30, the “Georgia Water Quality Control Act”, for each day on which such failure occurs.
   
   D. The Director may require, in accordance with regulations adopted by the board, reasonable and prudent monitoring of the turbidity level of receiving waters into which discharges from land-disturbing activities occur.

3. The rules and regulations, ordinances, or resolutions adopted pursuant to this chapter for the purpose of governing land-disturbing activities shall require, as a minimum, best management practices, including sound conservation and engineering practices to prevent and minimize erosion and resultant sedimentation, which are consistent with, and no less stringent than, those practices contained in the **Manual for Erosion and Sediment Control in Georgia** published by the Georgia Soil and Water Conservation Commission as of January 1 of the year in which the land-disturbing activity was permitted, as well as the following:

   A. Stripping of vegetation, regrading and other development activities shall be conducted in a manner so as to minimize erosion;
   
   B. Cut-fill operations must be kept to a minimum;
   
   C. Development plans must conform to topography and soil type so as to create the lowest practical erosion potential;
   
   D. Whenever feasible, natural vegetation shall be retained, protected and supplemented;
   
   E. The disturbed area and the duration of exposure to erosive elements shall be kept to a practicable minimum;
   
   F. Disturbed soil shall be stabilized as quickly as practicable;
   
   G. Temporary vegetation or mulching shall be employed to protect exposed critical areas during development;
   
   H. Permanent vegetation and structural erosion control practices shall be installed as soon as practicable;
   
   I. To the extent necessary, sediment in run-off water must be trapped by the use of debris basins, sediment basins, silt traps, or similar measures until the disturbed area is stabilized. As used in this paragraph, a disturbed area is stabilized when it is brought to a condition of continuous compliance with the requirements of O.C.G.A. § 12-7-1 et seq.;
   
   J. Adequate provisions must be provided to minimize damage from surface water to the cut face of excavations or the sloping of fills;
   
   K. Cuts and fills may not endanger adjoining property;
   
   L. Fills may not encroach upon natural watercourses or constructed channels in a manner so as to adversely affect other property owners;
M. Grading equipment must cross flowing streams by means of bridges or culverts except when such methods are not feasible, provided, in any case, that such crossings are kept to a minimum;

N. Land-disturbing activity plans for erosion and sedimentation control shall include provisions for treatment or control of any source of sediments and adequate sedimentation control facilities to retain sediments on-site or preclude sedimentation of adjacent waters beyond the levels specified in Section 35-104 (2)(B) of this ordinance;

O. Except as provided in paragraph (P) of this subsection, there is established a 25 foot buffer along the banks of all state waters, as measured horizontally from the point where vegetation has been wrested by normal stream flow or wave action, except where the Director determines to allow a variance that is at least as protective of natural resources and the environment, where otherwise allowed by the Director pursuant to O.C.G.A. § 12-2-8, or where a drainage structure or a roadway drainage structure must be constructed, provided that adequate erosion control measures are incorporated in the project plans and specifications, and are implemented; provided, however, the buffers of a least 25 feet established pursuant to part 6 of Article 5, Chapter 5 of Title 12, the “Georgia Water Quality Control Act”, shall remain in force unless a variance is granted by the Director as provided in this paragraph. The following requirements shall apply to any such buffer:

No Land-disturbing activities shall be conducted within a buffer and a buffer shall remain in its natural, undisturbed state of vegetation until all land-disturbing activities on the construction site are completed. Once the final stabilization of the site is achieved, a buffer may be thinned or trimmed of vegetation as long as a protective vegetative cover remains to protect water quality and aquatic habitat and a natural canopy is left in sufficient quantity to keep shade on the stream bed; provided, however, that any person constructing a single-family residence, when such residence is constructed by or under contract with the owner for his or her own occupancy, may thin or trim vegetation in a buffer at any time as long as protective vegetative cover remains to protect water quality and aquatic habitat and a natural canopy is left in sufficient quantity to keep shade on the stream bed; and

A. There is established a fifty (50) foot buffer as measured horizontally from the point where vegetation has been wrested by normal stream flow or wave action, along the banks of any state waters classified as “trout streams” pursuant to Article 2 of Chapter 5 of Title 12, the “Georgia Water Quality Control Act”, except where a roadway drainage structure must be constructed; provided, however, that small springs and streams classified as trout streams which discharge an average annual flow of twenty-five (25) gallons per minute or less shall have a twenty-five (25) foot buffer or they may be piped, at the discretion of the landowner, pursuant to the terms of a rule providing for a general variance promulgated by the Board, so long as any such pipe stops short of the downstream landowner’s property and the landowner complies with the buffer requirement for any adjacent trout streams. The Director may grant a variance from such buffer to allow land-disturbing activity, provided that adequate erosion control measures are incorporated in the project plans and specifications and are implemented. The following requirements shall apply to such buffer:

No Land-disturbing activities shall be conducted within a buffer and a buffer shall remain in its natural, undisturbed state of vegetation until all land-disturbing activities on the construction site are completed. Once the final stabilization of the site is achieved, a buffer may be thinned or trimmed of vegetation as long as a protective vegetative cover remains to protect water quality and aquatic habitat and a natural canopy is left in sufficient quantity to keep shade on the stream bed; provided, however, that any person constructing a single-family residence, when such residence is constructed by or under contract with the owner for his or her own occupancy, may thin or trim vegetation in a buffer at any time as long as protective vegetative cover remains to protect water quality and aquatic habitat and a natural canopy is left in sufficient quantity to keep shade on the stream bed; and
Soil Erosion and Sedimentation Control

own occupancy, may thin or trim vegetation in a buffer at any
time as long as protective vegetative cover remains to protect
water quality and aquatic habitat and a natural canopy is left
in sufficient quantity to keep shade on the stream bed; and

1. Nothing contained in this chapter shall prevent an Issuing Authority from
adopting rules and regulations, ordinances, or resolutions which contain requirements that exceed the
minimum requirements in Section 35-104 (2) and (3) of this ordinance.
2. The fact that land-disturbing activity for which a permit has been issued
results in injury to the property of another shall neither constitute proof of nor create a presumption of a
violation of the standards provided for in this ordinance or the terms of the permit.

ARTICLE 2. 1 Application/Permit Process

1. General. The property owner, developer and designated planners and
engineers shall review the general development plans and detailed plans of the Issuing Authority that affect
the tract to be developed and the area surrounding it. They shall review the zoning ordinance, stormwater
management ordinance, subdivision ordinance, flood damage prevention ordinance, this ordinance, and
other ordinances which regulate the development of land within the jurisdictional boundaries of the Issuing
Authority. However, the property owner is the only party who may obtain a permit.

2. Application Requirements.

A. No person shall conduct any land-disturbing activity within the
jurisdictional boundaries of the Newton County without first obtaining a permit from the Planning and
Zoning Department of Newton County to perform such activity.
B. The application for a permit shall be submitted to the Planning and
Zoning Department of Newton County and must include the applicant’s erosion and sedimentation
control plan with supporting data, as necessary. Said plans shall include, as a minimum, the data
specified in Section 35-105 (3) of this ordinance. Soil erosion and sedimentation control plans shall
conform to the provisions of Section 35-104 (2) and (3) of this ordinance. Applications for a permit
will not be accepted unless accompanied by three copies of the applicant’s soil erosion and
sedimentation control plans.
C. A fee, in the amount of as set by the Newton County Board of
Commissioners shall be charged for each acre or fraction thereof in the project area.
D. Immediately upon receipt of an application and plan for a permit, the
Issuing Authority shall refer the application and plan to the District for its review and approval or
disapproval concerning the adequacy of the erosion and sedimentation control plan. The results of
the District review shall be forwarded to the Issuing Authority. No permit will be issued unless the
plan has been approved by the District, and any variances required by Section 35-104 (3)(O) and (P)
and bonding, if required as per Section 35-105 (2)(E)(2), have been obtained. Such review will not
be required if the Issuing Authority and the District have entered into an agreement which allows the
Issuing Authority to conduct such review and approval of the plan without referring the application
and plan to the District.
E. (a) If a permit applicant has had two or more violations of previous
permits, this ordinance section, or the Erosion and Sedimentation Act, as amended within three (3)
years prior to the date of filing of the application under consideration, the Issuing Authority may deny
the permit application.
(b) The Issuing Authority may require the permit applicant to post a bond in the form of
government security, cash, irrevocable letter of credit, or any combination thereof up to, but
not exceeding, three thousand dollars ($3,000.00) per acre or fraction thereof of the proposed
land-disturbing activity, prior to issuing the permit. If the applicant does not comply with this
ordinance or with the conditions of the permit after issuance, the Issuing Authority may call the
bond or any part thereof to be forfeited and may use the proceeds to hire a contractor to
stabilize the site of the land-disturbing activity and bring it into compliance. These provisions
shall not apply unless there is in effect an ordinance or statute specifically providing for
hearing and judicial review of any determination or order of the Issuing Authority with respect
to alleged permit violations.

1. Plan Requirements.

A. Plans must be prepared to meet the minimum requirements as
contained in Section 35-104 (2) and (3) of this ordinance. Conformance with the minimum
requirements may be attained through the use of design criteria in the current issue of the Manual for

1. Graphic scale and north point or arrow indicating magnetic north.
2. Vicinity maps showing location of project and existing streets.

2. **Permits.**

A. Permits shall be issued or denied as soon as practicable but in any event not later than forty-five (45) days after receipt by the Issuing Authority of a completed application, providing variances and bonding are obtained, where necessary.

B. No permit shall be issued by the Issuing Authority unless the erosion and sedimentation control plan has been approved by the District and the Issuing Authority has affirmatively determined that the plan is in compliance with this ordinance, any variances required by Section 35-104 (3)(O) and (P) are obtained, bonding requirements, if necessary, as per Section 35-105 (2)(E)(2) are met and all ordinances and rules and regulations in effect within the jurisdictional boundaries of the Issuing Authority are met. If the permit is denied, the reason for denial shall be furnished to the applicant.

A holder of a permit shall notify any successor in title to him as to all or any portion of the land affected by the approved plan of the conditions contained in the permit.

E. No permit shall be issued unless the applicant provides a statement by the Newton County Tax Commissioner's Office certifying that all ad valorem taxes levied against the property and due and owing have been paid.

**ARTICLE 2.1 Inspection and Enforcement**

1. The Building and Inspections Department of Newton County will periodically inspect the sites of land-disturbing activities for which permits have been issued to determine if the activities are being conducted in accordance with the plan and if the measures required in the plan are effective in controlling erosion and sedimentation. If, through inspection, it is deemed that a person engaged in land-disturbing activities as defined herein has failed to comply with the approved plan, with permit conditions, or with the provisions of this ordinance, a written notice to comply shall be served upon that person. The notice shall set forth the measures necessary to achieve compliance and shall state the time within which such measures must be completed. If the person engaged in the land-disturbing activity fails to comply within the time specified, he shall be deemed in violation of this ordinance.

2. The Building and Inspections Department of Newton County shall have the power to conduct such investigations as it may reasonably deem necessary to carry out duties as prescribed in this ordinance, and for this purpose to enter at reasonable times upon any property, public or private, for the purpose of investigation and inspecting the sites of land-disturbing activities.

3. No person shall refuse entry or access to any authorized representative or agent of the Issuing Authority, the Commission, the District, or Division who requests entry for the purposes of inspection, and who presents appropriate credentials, nor shall any person obstruct, hamper or interfere with any such representative while in the process of carrying out his official duties.

The Districts or the Commission shall notify the Division and request investigation by the Division if any deficient or ineffective local program is found.

5. The Division may periodically review the actions of counties and municipalities which have been certified as issuing authorities pursuant to Code Section 12-7-8 (a). Such review may include, but shall not be limited to, review of the administration and enforcement of a governing authority’s ordinance and review of conformance with an agreement, if any, between the District and the governing authority. If such review indicates that the governing authority of any county or municipality certified pursuant to O.C.G.A. § 12-7-8(a) has not administered or enforced its ordinances or has not conducted the program in accordance with any agreement entered into pursuant to O.C.G.A. § 12-7-7(d), the Division shall notify the governing authority of the county or municipality in writing. The governing authority of any county or municipality so notified shall have thirty (30) days within which to take the necessary corrective action to retain certification as an Issuing Authority. If the county or municipality does
not take necessary correction action within thirty (30) days after notification by the Division, the Division may revoke the certification of the county or municipality as an Issuing Authority.

ARTICLE 2.1 Penalties and Incentives

1. **Failure to Obtain a Permit for Land-Disturbing Activity.** If any person commences any land-disturbing activity requiring a land-disturbing permit as prescribed in this ordinance without first obtaining said permit, the person shall be subject to revocation of his business license, work permit or other authorization for the conduct of a business and associated work activities within the jurisdictional boundaries of the Issuing Authority.

2. **Stop-Work Orders.**
   A. For the first and second violations of the provisions of this ordinance, the Director or the Issuing Authority shall issue a written warning to the violator. The violator shall have five (5) days to correct the violation. If the violation is not corrected within five (5) days, the Director or the Issuing Authority shall issue a stop-work order requiring that land-disturbing activities be stopped until necessary corrective action or mitigation has occurred; provided, however, that, if the violation presents an imminent threat to public health or waters of the state or if the land-disturbing activities are conducted without obtaining the necessary permit, the Director or Issuing Authority shall issue an immediate stop-work order in lieu of a warning;
   B. For a third and each subsequent violation, the Director or Issuing Authority shall issue an immediate stop-work order; and;
   C. All stop-work orders shall be effective immediately upon issuance and shall be in effect until the necessary corrective action or mitigation has occurred.

The notice shall set forth the measures necessary to achieve compliance with the plan and shall state the time within which such measures must be completed. If the person engaged in the land-disturbing activity fails to comply within the time specified, he shall be deemed in violation of this ordinance and, in addition to other penalties, shall be deemed to have forfeited his performance bond, if required to post one under the provisions of Section 35-105 (B)(5)(b). The Issuing Authority may call the bond or any party thereof to be forfeited any may use the proceeds to hire a contractor to stabilize the site of the land-disturbing activity and bring it into compliance.

4. **Monetary Penalties.**
   A. Except as provided in paragraph (B) of this subsection, any person who violates any provisions of this ordinance, the rules and regulations adopted pursuant hereto, or any permit condition or limitation established pursuant to this ordinance or who negligently or intentionally fails or refuses to comply with any final or emergency order of the Director issued as provided in this ordinance shall be liable for a civil penalty not to exceed two thousand five hundred dollars ($2,500.00) per day. For the purpose of enforcing the provisions of this ordinance, notwithstanding any provisions in any legislative act to the contrary, municipal courts shall be authorized to impose penalty not to exceed two thousand five hundred dollars ($2,500.00) for each violation. Notwithstanding any limitation of law as to penalties which can be assessed for violations of county ordinances, any magistrate court or any other court of competent jurisdiction trying cases brought as violations of this ordinance under county ordinances approved under this ordinance shall be authorized to impose penalties for such violations not to exceed two thousand five hundred dollars ($2,500.00) for each violation. Each day during which violation or failure or refusal to comply continues shall be a separate violation.
   B. The following penalties shall apply to land-disturbing activities performed in violation of any provision of this ordinance, any rules and regulations adopted pursuant hereto, or any permit condition or limitation established pursuant to this ordinance;
      (1) There shall be a minimum penalty of two hundred fifty dollars ($250.00) per day for each violation involving the construction of a single-family dwelling by or under contract with the owner for his or her own occupancy; and
      (2) There shall be a minimum penalty of one thousand dollars ($1,000.00) per day for each violation involving land-disturbing activities other than as provided in subsection (1) of this paragraph.

ARTICLE 2.1 Administrative Appeal, Judicial Review
1. **Administrative Remedies.** The suspension, revocation, modification or grant with condition of a permit by the Issuing Authority upon finding that the holder is not in compliance with the approved erosion and sediment control plan; or that the holder is in violation of permit conditions; or that the holder is in violation of any ordinance; shall entitle the person submitting the plan or holding the permit to a hearing before the Newton County Planning Commission within fifteen (15) days after receipt by the Issuing Authority of written notice of appeal.

2. **Judicial Review.** Any person, aggrieved by a decision or order of the Issuing Authority, after exhausting his administrative remedies, shall have the right to appeal de novo to the Superior Court of Newton County.

**ARTICLE 2.1 Effectivity, Validity and Liability**

1. **Effectivity.** This ordinance shall become effective on the 16 day of January, 2001.

3. **Liability.**
   A. Neither the approval of a plan under the provisions of this ordinance, nor the compliance with provisions of this ordinance shall relieve any person from the responsibility for damage to any person or property otherwise imposed by law nor impose any liability upon the Issuing Authority or District for damage to any person or property.
   B. The fact that a land-disturbing activity for which a permit has been issued results in injury to the property of another shall neither constitute proof of nor create a presumption of a violation of the standards provided for in this ordinance or the terms of the permit.
   C. No provision of this ordinance shall permit any persons to violate the Georgia Erosion and Sedimentation Act of 1975, the Georgia Water Quality Control Act or the rules and regulations promulgated and approved thereunder or pollute any Waters of the State as defined thereby.

ARTICLE 2.1 Local Amendments to State Minimum Codes

1. In the event that the governing authority of any county finds that the state
minimum standard codes do not meet its needs, the local government may provide requirements not less
stringent than those specified in the state minimum, standard codes when such requirements are based on
local climatic, geologic, topographic, or public safety factors; provided, however, that there is a
determination by the local governing body of a need to amend the requirements of the state minimum
standard code based upon a demonstration by the local governing body that local conditions justify such
requirements not less stringent than those specified in the state minimum standard codes for the protection
of life and property. All such proposed amendments shall be submitted by the local governing body to the
Department of Community Affairs sixty (60) days prior to the adoption of such amendment. Concurrent
with the submission of the proposed amendment to the department, the local governing body shall submit
in writing the legislative findings of the governing body and such other documentation as the local
governing body deems helpful in justifying the proposed amendment. The department shall review and
comment on a proposed amendment. Such comment shall be in writing and shall be sent to the submitting
local government with a recommendation:
A. That the proposed local amendment should not be adopted, due to
the lack of sufficient evidence to show that such proposed local amendment would be as stringent as
the state minimum standard codes and the lack of sufficient evidence to show that local climatic,
geologic, topographic, or public safety factors require such an amendment;
B. That the proposed local amendment should be adopted, due to a
preponderance of evidence that such proposed local amendment would be as stringent as the state
minimum standard codes and a preponderance of evidence that the local climatic, geologic,
topographic, or public safety factors require such an amendment; or
C. That the department has no recommendation regarding the
adoption or disapproval of the proposed local amendments, due to the lack of sufficient evidence to
show that such proposed local amendment would or would not be as stringent as the state minimum
standard codes and the lack of sufficient evidence to show that local climatic, geologic, topographic,
or public safety factors require or do not require such an amendment.
2. The department shall have sixty (60) days after receipt of a proposed local amendment to review the proposed amendment and make a recommendation as set forth in Section 36-104(1). In the event that the department fails to respond within the time allotted, the local governing body may adopt the proposed local amendment.

3. In the event that the department recommends against the adoption of the proposed local amendment, a local governing body shall specifically vote to reject the department’s recommendations before any local amendment may be adopted.

4. No local amendment shall become effective until the local governing body has caused a copy of the adopted amendment to be filed with the department. A copy of an amendment shall be deemed to have been filed with the department when it has been placed in the United States mail, return receipt requested.

5. Nothing in this subsection shall be construed so as to require approval by the department before a local amendment shall become effective.

6. The department shall maintain a file of all amendments to the state minimum standard codes adopted by the various municipalities and counties in the state, which information shall be made available to the public upon request. The department may charge reasonable fees for copies of such information. An index of such amendments shall be included in each new edition of a state minimum standard code.

7. Except as otherwise provided in this section, building related codes or sections dealing with the subjects of historic preservation, high-rise construction, or architectural design standards for which a state minimum standard code does not exist may be adopted by a local jurisdiction following review by the department. The department’s review shall be limited to a determination that the proposed code or ordinance is consistent with the approved state minimum standard codes when common elements exist and is not less restrictive than the requirement of said codes. Changes to all other state minimum standard codes shall be approved only pursuant to the provisions of this section regarding local amendments.

ARTICLE 2.1 Revision of State Minimum Standard Codes

The Department of Community Affairs may from time to time revise and amend the state minimum standard codes.

At the time of issuing a building permit, Newton County shall notify the holder of the permit of any local amendments to the state minimum standard codes which are in effect for that county and that any such amendments are on file with the department. A county may satisfy this notice requirement by posting or providing a summary of the topic of such local amendment or amendments and the address and telephone number of the department.

ARTICLE 2.1 Enforcement of Codes

1. The governing body of any county adopting any state minimum standard code shall have the power:
   A. To adopt by ordinance or resolution any reasonable provisions for the enforcement of the state minimum standard codes, including procedural requirements, provisions for hearings, provisions for appeals from decisions of local inspectors, and any other provisions or procedures necessary to the proper administration and enforcement of the requirements of the state minimum standard codes;
   B. To provide for inspection of buildings or similar structures to ensure compliance with the state minimum standard codes;

ARTICLE 2.1  Applicability of Ordinance in the Event of Emergencies

If any emergency arises which presents an immediate and substantial danger to life, health, or property or which requires the establishment or restoration of gas, electric, communication, rail or other essential public services, it shall be lawful for the person who undertakes to prevent such damage to life, health, or property or who is responsible for the establishment or restoration of such gas, electric, communication, rail, or other essential public services to engage in blasting or excavating with mechanized excavating equipment for such purpose without complying with Section 37-106, provided that, before commencing the same or as soon thereafter as is reasonably practical, the person shall give notice thereof to any utility which the person, in the exercise of reasonable judgement, believes may have gas pipes or other underground utility facilities within such proximity as to be affected by the blasting or excavating with mechanized excavating equipment.

Any such person shall also indemnify the affected utility against all claims, if any, for personal injury, property damage, or service interruptions resulting from damaging the underground gas pipes or other utility facilities.

1. Subsections (1) and (2) shall not apply to any person who shall commence, perform or engage in blasting or in excavating with mechanized equipment on any tract or parcel of land in the unincorporated area of Newton County if the utility to which the notice was given respecting such blasting or excavating with mechanized equipment as prescribed in Section 37-106(1) has failed to comply with Section 37-107 or has failed to become a member of the Utilities Protection Center as required by Section 37-104.

lay down, maintain and operate underground pipes and conduits with the necessary manholes or other appliances therefor and to erect standard utility poles with or without crossarms, stretch wires and cable, and antennas or other appurtenances thereof, in, over, upon and under the streets, alleys, public highways of the County and to maintain and use the same for the purpose of operating a cable television system for public establishments, apartments, hotels, motels, residences, and other premises as may also desire such service. When practical, the City shall make use of existing telephone and power poles in conformity with such arrangements as may be had with the telephone and power companies in the Franchise Area.

3. **Conditions.** As a condition precedent for the granting of this franchise, the City has previously presented for approval by the County, the City's proposal for providing Cable Television Service within the Franchise Area as well as documentation of its legal, character, financial and technical qualifications for providing such service. The City has displayed to the County a map designating the location and general time schedules for areas to be served.

4. **Conditions of Street Occupancy.** The poles used for the City's Cable Television System shall be those erected and maintained by the County, the City, Southern Bell Telephone Company, the Georgia Power Company or Snapping Shoals E.M.C., when and where practicable, provided mutually satisfactory rental agreements can be entered into with said owners. Where the use of poles owned by owners stated above is not practicable or mutually satisfactory rental agreements cannot be entered into with said companies following a good-faith effort on the part of the City to obtain such agreements, the City shall have the right to erect and maintain its own poles, as may be necessary for the proper construction and maintenance of the Cable Television System.

In the maintenance and operation of its Cable Television System in the streets, alleys, and other public places, and in the course of any new construction or addition to its facilities within the Franchise Area, the City shall proceed so as to cause the least possible inconvenience to the general public; any opening or obstruction in the streets or other public places made by the City in the course of its operations shall be made only after having obtained prior written permission from the Board of Commissioners or their designee to do so, and shall be guarded and protected at all times by the placement of adequate barriers, fences or boardings, the bounds of which, during periods of dusk and darkness, shall be clearly designated by appropriate warning lights.

All work in any way necessitated by the business of the City which may involve the opening, breaking up or tearing up of a portion of a street, sidewalk or other part of any county-owned or county-controlled property, shall be done and repaired in a manner approved by the County and may be done by the County at the expense of the City, if mutually agreed upon by the County and the City. When a cut or disturbance is made in a section of sidewalk paving, rather than replacing only the area cut by the City, the City shall replace the full width of the existing walk and the length of the section or sections cut, a section being determined as that area marked by expansion joints or scoring; provided however, if a section is longer than six (6) feet, the City may create a section by creating a section no more than six (6) feet in length. Installation shall be maintained so as not to interfere with TV reception already in existence.

1. **Relocation.** If the County, at any time deems it advisable to improve any of its streets, alleys, avenues, thoroughfares and/or public highways by grading or regrading or paving the same, or altering, changing, repairing or re-improving the same, the City, upon written notice by the County, shall, at its expense, immediately so raise, lower or move its line or cables or poles or wires, conduits or improvements to confirm to such new grades as may be established, or place the facilities in such location or positions as shall cause the least interference with any such improvements or other work thereon and contemplated by the County. The County shall in no way be liable for any damages to the City that may occur by reason of the County's improvements, repairs or maintenance or by the exercise of any rights so reserved in this section or ordinance. If the County shall improve such streets, alleys, avenues, thoroughfares, and/or public highways, the City shall on written notice by the County, at its own expense, replace such cable, wires, poles or other property of the City as may be in or through the improved subgrade of such improvements with material which shall conform to the specifications for the improvement of such streets, alleys, avenues, thoroughfares and/or public highways or public places.

2. **Tree Trimming.** Where tree trimming is deemed necessary on public streets or places for the operation of the lines, wires, cables and antennas or other appurtenances and property of City, such trimming shall be done by competent employees, agents or contractors of the City after application for, and granting of a permit by the Chairman of the Board of Commissioners of the County or his designee and it shall be done without cost or expense to the County.

3. **Minimum Channels.** Twelve viewing channels shall be furnished as a minimum and installation and maintenance of equipment shall be such that standard color signals shall be transmitted. All basic and movie services offered by the City to the residents of the City of Covington shall be offered to the subscribers in the Franchise Area.

4. **Rates.** The following provisions shall apply to rates and charges imposed by the City in the Franchise Area only. All rates and charges exacted by the City shall be subject to review by the County and shall be fair, reasonable, just and uniform.

Until changed in the manner herein specified, the maximum installation charge shall be twenty-five dollars ($25.00) per single-outlet standard connection. Should, however, underground installation be required, and for all installations in excess of the allowances for a standard connection, the charge will be equal to the actual cost including an overhead factor incurred by the City in said installation. Installation charges for each additional outlet shall be at the same rate the City charges Subscribers within the City of Covington for similar installations.

Initially, the monthly service rate charge to a Subscriber for Basic CATV Service shall not exceed six dollars ($6.00) for a single-outlet residential installation, two dollars ($2.00) for each additional outlet and eight dollars ($8.00) for each movie service through Home Box Office or a similar service and shall otherwise be the same rates the City charges Subscribers within the City of Covington for the same services.

The aforesaid monthly service rates and installation charges as are herein provided for shall be in effect upon the signing of this agreement and shall continue thereafter, unless changed as hereinafter proved. The installation charge and monthly service rates charged multiple user subscribers as herein defined shall be the same rates and charges then imposed by the City for multiple user service within the City of Covington.

The City shall give the County written notice of any proposed increase of subscriber rates and/or installation charges at least sixty (60) days before the proposed rates and/or charges are to go into effect. The increase shall be approved, unless within said sixty (60) days, the County notifies the City in writing of its intention to investigate the proposed increase. At no time will any monthly service rates exceed those charged by the City to subscribers for service within the City of Covington. In the event the County notifies the City of its intention to investigate a proposed rate increase, the procedures for investigation and action thereon by the County shall be in accordance with the provisions of Paragraph 23 hereof.

The rates and charges for the services provided hereunder shall be fair, reasonable and nondiscriminatory. The City shall not be denied an increase in its rates if it can demonstrate to the County's satisfaction that the City cannot make a fair return on its investment without a rate increase.

1. **Term of Franchise.** The County having determined the term to be reasonable, the term of the Franchise is as follows:
A. The franchise and rights herein granted shall take effect and be in force from and after the final passage hereof and shall terminate fifteen (15) years from the date of the grant, and may be renewed for successive ten (10) year terms, following a public proceeding affording due process, on the same terms or conditions as contained herein, or such different or additional terms and conditions as may be lawfully specified by the County and consistent with the requirements of the Federal Communications Commission. These additional terms or conditions may only be adopted following notification to the City which shall specify the proposed changes in the Franchise Ordinance.

B. The franchise term may be extended for one period of six (6) months provided that proceedings for renewal of the franchise have been commenced by giving public notice thereof and the City has accepted such extension prior to the expiration date of the franchise.

2. Franchise Fee. In consideration of the rights, privileges and franchise hereby granted, said City, its permitted successors and assigns, shall pay to the County, from and after the effective date of this franchise ordinance and until its expiration or until such earlier time as the rate herein provided may be renegotiated, three percent (3%) per annum of the Basic CATV Service receipts derived from the operation of the Basic Cable Service including receipts from multiple outlets utilized by any subscriber in the Franchise Area. Any and all sums received by the City for any installation or connection work shall not be included in the term "receipts" for calculation of the franchise fee. No other expenditures, however, of any kind shall be deducted from the gross receipts of the City in determining gross Basic CATV Service receipts; provided however, all applicable sales and use taxes imposed by any governmental authority on the City's gross Basic CATV Service receipts shall be excluded from calculations of the applicable franchise fees.

Payment of said franchise fee shall be made on or before the first day of March of each year for the calendar year preceding.

The County, by its Board of Commissioners or such other officers or representatives of the Board of Commissioners as the Board of Commissioners may designate, shall at all times have access to the books, records, papers, files and property of the City relating only to the City's Cable Television System operations in the Franchise Area; provided, that the County shall give the City forty-eight (48) hours written notice in advance of its intent to exercise the right of review of said documents and/or property, which notice shall contain a description of the documents and/or property to be reviewed.

1. Service Policies. The City contemplates extending its energized trunk cable throughout the Franchise Areas that have the potential of meeting the City's minimum density requirement of at least thirty (30) cable subscribers per mile of energized trunk cable by December 31, 1983, so that Basic CATV Service will be available to all Subscribers in the Franchise Areas that meet the City's aforesaid density requirements for trunk cable extensions. By January 31, 1982, the City shall:

   A. Extend energized trunk cable along Georgia Highway 81 from the Porterdale City Limits to Salem Road (Georgia Highway 162) and along Salem Road to the Newton-Rockdale County Line and make Basic CATV Service available to Subscribers in that immediate area;

   B. Submit to the Board of Commissioners the City's proposed schedule for the installation of energized trunk cable throughout all other portions of the Franchise Area that meet the City's density requirement of at least thirty (30) cable Subscribers per mile of energized trunk cable. The City and the County agree to cooperate in modifying the City's proposed schedule of energized trunk cable extensions as necessary to permit extensions of CATV in areas of high Subscriber density.

   C. Upon the County's approval of the City's proposal for extension of energized trunk cable or after mutual modification thereof, the City shall proceed in installing its energized trunk cable in accordance with the approved schedules and provide Basic CATV Service to the Subscribers of the Franchise Areas covered by such extensions.

If at any time the City is not in compliance with the schedules specified in this section, the County shall be authorized to terminate the City's rights under this agreement as to all portions of the Franchise Area not then served by the City.

1. Indemnification and Insurance.

A. Insurance. So long as the City shall exercise any right or privilege granted by this ordinance and as a condition of the franchise herein granted becoming effective, the City shall provide and maintain in full force and effect public liability insurance. The amounts of such insurance against liability due to physical damage to property shall be not less than one hundred thousand dollars ($100,000.00) for all damage arising out of injury to or destruction of property in any one occurrence and against liability due to bodily injury or to death of person of not less than three hundred thousand
dollars ($300,000.00) as to any one accident. A copy of such policy or certificate evidencing the
same shall be filed in the office of the Clerk of the County and shall provide for ten (10) days
advance notice to the County of any change, cancellation or lapse thereof.

B. Indemnity. The City, by its acceptance of this ordinance and the rights, privileges and
franchise hereby granted, does covenant and agree for itself, its successors and assigns, with the
County, to at all times protect and save harmless the County from all claims, actions, suits, liability,
loss, costs, expenses or damages of every kind or description which may accrue to, or be suffered by,
any person or persons or property arising out of the City's operation of the Cable Television
System in the Franchise Area, and to appear and to defend at its own cost and expense any such action or suit instituted or begun against the County for damages, by reason of the construction,
reconstruction, readjustment, repair, maintenance, operation, or use of said streets or anything that
has been done or may at any time be done by City, its employees or agents, by virtue of this
ordinance, and in case judgement shall be rendered against said County in any suit or action, said
City shall fully satisfy such judgement within ninety (90) days after such action or suit shall have
been finally determined (including all applicable appeals), if determined adversely to the County.

By its acceptance of the franchise, the City agrees that it shall pay all necessary and
reasonable expenses incurred by the County in defending itself with regard to all damages and penalties mentioned in this section, including County's reasonable attorneys' fees.

1. Default. In the event the City fails to renew its option at the termination of the franchise period, or in
the event that the franchise is forfeited due to the failure of the City to fully comply with all terms and
conditions of this agreement, the City's Cable Television System in the Franchise Area shall be placed up
for sale at the fair market value and the Count shall have first option of refusal on the purchase of the
system.

2. Audits. The City shall, during each year of this agreement, have prepared, by an independent
certified public accountant, an annual financial audit which shall be sufficient to ascertain the financial
condition of the City. Such audit report shall be submitted to the Board of Commissioners on or before the
first day of June of each year.

3. Violations.
   A. From and after the effective date of this Ordinance, it shall be unlawful for any person to
   construct, install or maintain within any public street, or within any privately-owned area within the
   County which has not yet become a public street on any preliminary subdivision plat approved by the

The County shall hold the Company, its agents, employees, officers, and assigns hereunder harmless from any claims arising out of the emergency use of its facilities by the County, including, but not limited to reasonable attorneys' fees and costs.

Notwithstanding anything to the contrary set forth in Paragraph 21, neither the County nor the Company shall be required to violate federal state law.

22. The Company's right, title, or interest in the Franchise shall not be sold, transferred, assigned or otherwise encumbered, other than to an Affiliate, without the prior consent of the County, such consent not to be unreasonably withheld. No such consent shall be required, however, for a transfer in trust, by mortgage, by other hypothecation, or by assignment of any rights, title, or interest of Company in the franchise or Cable System in order to secure indebtedness.

23. In the event that the County believes that the County believes that the Company has not complied with the terms of the Franchise, it shall notify the Company of the exact nature of the alleged noncompliance.

24. The Company shall have thirty (30) days from receipt of the notice described in Paragraph 23 to (a) respond to the County contesting the assertion of noncompliance, or (b) to cure such default or, in the event that, by the nature of default, such default cannot be cured within the thirty (30) day period, initiate reasonable steps to remedy such default and notify the County of the steps being taken and the projected date that they will be completed.

25. In the event that the Company fails to respond to the notice described in Paragraph 23 pursuant to the procedures set forth in Paragraph 24, or in the event that the alleged default is not remedied within sixty (60) days after the Company is notified of the alleged default pursuant to Paragraph 23, the County shall schedule a public meeting to investigate the default. C. In the case of a substantial default of a material provision of the Franchise, declare the Franchise Agreement to be revoked; or

D. Seek specific performance of any provision, which reasonably lends itself to such remedy, as an alternative to damages.
The Company shall not be relieved of any of its obligations to comply promptly with any provision of the Franchise by reason of any failure of the County to enforce prompt compliance.

1. The Company shall not be held in default or noncompliance with the provisions of the Franchise, nor suffer any enforcement or penalty relating thereto, where such noncompliance or alleged defaults are caused by strikes, acts of God, power outages, or other events reasonably beyond its ability to control.

2. Unless expressly otherwise agreed between the parties, every notice or response to be served upon the County or the Company shall be in writing, and shall be deemed to have been duly given to the required party five (5) business days after having been posted in a properly sealed and correctly addressed envelope by certified or registered mail, postage prepaid, at a Post Office or branch thereof regularly maintained by the U.S. Postal Service. 9. In the maintenance and operation of its television transmission and distribution system in the streets, alleys, and other public places, and in the course of any new construction of additions to its facilities, the Company shall proceed so as to cause the least possible inconvenience to the general public; any opening or obstruction in the streets or any other public places made by the Company in the course of its operations shall be guarded and protected at all times by the placements of adequate barriers, fences, or boardings, the bounds of which, during periods of dusk and darkness, shall be clearly designed by appropriate warning lights. All work in any way necessitated by the business of the company which may involve the opening, breaking up, or tearing up of a portion of a street, sidewalk, or other part of any County owned or controlled property, shall be done and repaired in a manner approved by the County and may be done by the County at the expense of the Company, if mutually agreed upon by the County and the Company.

10. Installation shall be maintained so as not to interfere with existing television reception.

11. The transmission and distribution system installed by the Company shall not be abandoned in whole or in part without the consent of the County. In the event of the failure of the Company to commence construction of the system within one hundred eighty (180) days after the enactment of this ordinance, and securing of the pole attachment agreement with the concerned utilities, or in the event of the failure of the Company to make cable television service available to homes representing at least thirty percent (30%) of the area intended to be served by the Company within one (1) year of the enactment of this ordinance, the County may, on ninety (90) days notice to the Company, declare this ordinance and the right and franchise granted hereunder forfeited. Failure to comply with these terms by reason of circumstances, which could not be anticipated at the time of the acceptance of its terms by the Company, shall not be sufficient grounds for the County to declare a forfeiture.

12. The Company is hereby authorized to extend the Cable System as necessary, as desirable, or as required pursuant to the terms hereof within the Service Area. Whenever the Company shall receive a request for service from at least fifteen (15) Subscribers within one thousand, three hundred twenty (1,320) cable bearing strand feet (one-quarter (1/4) cable mile) of its trunk or distribution cable, it shall extend its Cable System to such Subscribers at no cost to said Subscribers for system extension, other than the usual connection fees for all Subscribers; provided that such extension is technically feasible, and if it will not adversely affect the operation, financial condition or market development of the Cable System.

13. The Company shall indemnify, protect, and save harmless and defend the County from and against losses and physical damages to property, and bodily injury or death to persons, including payments made under any workmen's compensation law, which may arise out of or be caused by the construction, operation, erection, maintenance of its Cable System or the presence, use or removal of said attachments on poles within the County, or by any acts of the Company, its agents or employees arising out of the operations of the Company. The Company shall maintain in full force and effect, at its own cost and expense, during the term of the Franchise, General Comprehensive Liability Insurance in the amount of five hundred thousand dollars ($500,000.00) for bodily injuries, (including accidental death) for any one occurrence person, and subject to the same limit for each person in an amount not less than three hundred thousand dollars ($300,000.00) on account of any one occurrence, and Property Damage Liability Insurance in an amount not less than five hundred thousand dollars ($500,000.00) resulting from any one occurrence. Said insurance shall designate the County as an additional named insured. Such insurance shall be noncancellable except upon thirty (30) days prior written notice to the County. The Company shall also carry such insurance as it deems necessary to protect it from all claims under any worker's compensation laws in effect that may be applicable to the company. All insurance required by this agreement shall be and remain in full force and effect for the entire life of this agreement.

14. The Company hereby grants to the County, free of any expense, joint use of any and all poles owned by the Company for any governmental purpose insofar as it may be done with interfering with the free use and enjoyment of the Company's own wires and fixtures, and the County shall hold the Company harmless from any and all actions, causes of action, or damage directly caused by the placing of the County's wires or appurtenances upon the poles of the Company. Proper regard shall be given to all existing safety rules governing construction and maintenance in effect at the time of the construction.

15. In consideration of the granting of this franchise to the Company, the Company will furnish without charge a single outlet to any of the County's departmental offices within the service area of the Company.

16. In further consideration of the granting of this franchise to the Company, the Company shall pay to the County annually, an amount equal to five percent (5%) of gross subscriber revenues of the Company.
derived from basic cable service monthly fees paid by subscribers residing within the legal limits of the County. The County shall have the right to inspect the records of the company at any reasonable time for the purpose of ascertaining accurately what the actual gross receipts of the Company may have been for basic cable television service for past years and/or the current year. Payment shall be made ninety (90) days after the close of the preceding calendar year. Any and all sums received by the Company for any installation or connection work shall not be included in the term "gross subscriber revenues" for calculation of the franchise fee.

17. All installations by the Company shall be made in good substantial and safe conditions and shall be maintained in such conditions at all times.

18. The Company shall, during each year of this agreement, have available for inspection by the County, an annual financial report which shall be sufficient to ascertain the financial condition of the Company.

19. The Company shall, at all times, be in full compliance with all FCC regulations, as amended, pertaining to cable television systems. The Company shall, furthermore, at all time, be in full compliance with all existing federal, state, and local laws, ordinances and statutes as are applicable to the operation of a cable television system. No part of this ordinance shall be construed as a waiver of any local, state or federal law, or as a limit of liability.

20. In the case of any emergency or disaster, the Company shall, upon request of the County make available its facilities for the County, to provide emergency information and instructions during the emergency or disaster period. The County shall hold the Company, its agents, employees, officers, and assigns hereunder harmless from any claims arising out of the emergency use of its facilities by the County, including, but not limited to, reasonable attorneys' fees and costs.

21. If a renewal of Company's Franchise is denied and the County either lawfully acquires ownership of the Cable System or by it sanctions lawfully effects a transfer of ownership of the Cable System to another party, any such acquisition or transfer of the Cable System shall be at a fair market value, determined on the basis of the Cable System valued as a going concern, but with no value allocated to the Franchise itself. If the distribution system of the Company shall be placed up for sale at fair market value, the County shall have first option of refusal on the purchase of the system. If Company's Franchise is lawfully revoked for cause and the County acquires ownership of the Cable System or by its actions effects a transfer of ownership of the Cable System to another person, any such acquisition or transfer shall be at an equitable price. The Company and County agree that in the case of a revocation, at Company's request, which shall be made in its sole discretion, the Company shall be given a reasonable opportunity to effectuate a transfer of its Cable System to a qualified third party at fair market value, determined on the basis of the Cable System valued as an ongoing concern. The County further agrees that during such a period of time, it shall authorize the Company to continue to operate pursuant to the terms of its prior Franchise; however, in no event shall such authorization exceed a period of time greater than six (6) months from the effective date of such revocation. If, at the end of that time, the Company is unsuccessful in procuring a qualified transferee or assignee of its Cable System, which is reasonably acceptable to the County, the Company and County may avail themselves of any rights they may have pursuant to federal or state law, it being further agreed that the Company's continued operation of its Cable System during the six (6) month period shall not be deemed to be a waiver, nor an extinguishment of, any rights of either the County or the Company. Notwithstanding anything to the contrary set forth in Paragraph 21, neither the County nor the Company shall be required to violate federal state law.

22. The Company's right, title, or interest in the Franchise shall not be sold, transferred, assigned or otherwise encumbered, other than to an Affiliate, without the prior consent of the County, such consent not to be unreasonably withheld. No such consent shall be required, however, for a transfer in trust, by mortgage, by other hypothecation, or by assignment of any rights, title, or interest of Company in the franchise or Cable System in order to secure indebtedness.

23. In the event that the County believes that the County believes that the Company has not complied with the terms of the Franchise, it shall notify the Company of the exact nature of the alleged noncompliance.
24. The Company shall have thirty (30) days from receipt of the notice described in Paragraph 23 to (a) respond to the County contesting the assertion of noncompliance, or (b) to cure such default or, in the event that, by the nature of default, such default cannot be cured within the thirty (30) day period, initiate reasonable steps to remedy such default and notify the County of the steps being taken and the projected date that they will be completed.

25. In the event that the Company fails to respond to the notice described in Paragraph 23 pursuant to the procedures set forth in Paragraph 24, or in the event that the alleged default is not remedied within sixty (60) days after the Company is notified of the alleged default pursuant to Paragraph 23, the County shall schedule a public meeting to investigate the default. Such public meeting shall be held at the next regularly scheduled meeting of the Board of Commissioners of the County which is scheduled at a time which is no less than five (5) business days therefrom. The County shall notify the Company of the time and place of such meeting and provide the Company with an opportunity to be heard.

26. Subject to applicable federal and state law, in the event the County, after such meeting, determines that the Company is in default of any provision of the Franchise, the County may:
   A. Foreclose on all or any part of any security provided under this Franchise, if any, including, without limitation, any bonds or other surety; provided, however, the foreclosure shall only be in such a manner and in such amount as the County reasonable determines is necessary to remedy the default;
   B. Commence an action at law for monetary damages or seek other equitable relief;
   C. In the case of a substantial default of a material provision of the Franchise, declare the Franchise Agreement to be revoked; or
   D. Seek specific performance of any provision, which reasonably lends itself to such remedy, as an alternative to damages.

The Company shall not be relieved of any of its obligations to comply promptly with any provision of the Franchise by reason of any failure of the County to enforce prompt compliance.

1. The Company shall not be held in default or noncompliance with the provisions of the Franchise, nor suffer any enforcement or penalty relating thereto, where such noncompliance or alleged defaults are caused by strikes, acts of God, power outages, or other events reasonably beyond its ability to control.

2. Unless expressly otherwise agreed between the parties, every notice or response to be served upon the County or the Company shall be in writing, and shall be deemed to have been duly given to the required party five (5) business days after having been posted in a properly sealed and correctly addressed envelope by certified or registered mail, postage prepaid, at a Post Office or branch thereof regularly maintained by the U.S. Postal Service. The notices or responses to the County shall be addressed as follows: Newton County Board of Commissioners, 1113 Usher Street, Covington, Georgia 30209. The notices or responses to the Company shall be addressed as follows: Friendship Cable of Georgia, Suite 433, 3192 Atlanta Highway, Athens, Georgia 30606. The County and the Company may designate such other address or addresses from time to time by giving notice to the other.
